

Risk Disclosure:

- **Allianz Global Agricultural Trends** aims at long-term capital growth through investments in global equity markets, with the focus on the “Raw Materials Production” or “Product Processing & Distribution” sector. The Fund is exposed to significant risks which include investment/general market, industry, company-specific, liquidity and currency risks.
- **Allianz Europe Equity Growth** is exposed to significant risks which include investment/general market, country, European country and company-specific risks. The economic and financial difficulties in Europe may get worse and thus may adversely affect the Fund (such as increased volatility, liquidity and currency risks associated with investments in Europe).
- The above Funds may invest in financial derivative instruments (“FDI”) for efficient portfolio management (including for hedging) which may expose to higher leverage, counterparty, liquidity, valuation, volatility, market and over the counter transaction risks. The Funds will not invest extensively in FDI for investment purpose. Dividend payments may, at the sole discretion of the Investment Manager, be made out of the Funds’ capital or effectively out of the Funds’ capital which represents a return or withdrawal of part of the amount investors originally invested and/or capital gains attributable to the original investment. This may result in an immediate decrease in the NAV per share and the capital of the Fund available for investment in the future and capital growth may be reduced.
- **Allianz China A-Shares** aims at long-term capital growth, investing primarily in the A-Shares equity markets of the PRC. The Fund is exposed to various risks which include risks associated with the small-capitalisation/mid-capitalisation companies, the Qualified Foreign Institutional Investors (“QFII”)/ Renminbi Qualified Foreign Institutional Investor (“RQFII”) regime, investing in closed-end funds and the Stock Connect, emerging market risk, company-specific risk, concentration risk, PRC tax risk and currency risk. The Fund utilizes the QFII quota of Allianz Global Investors GmbH (the Management Company/QFII holder) and the RQFII quota of Allianz Global Investors Singapore Limited (RQFII holder) to invest in the China A-Shares market. Repatriation of investments in the PRC is subject to limitation and restrictions imposed by relevant PRC laws and regulations and may expose the Fund to higher liquidity risk.
- This investment may involve risks that could result in loss of part or entire amount of investors’ investment.
- In making investment decisions, investors should not rely solely on this material.
