Assets under management by asset class

Actively shaping a future full of opportunity

Our commitment to active asset management is unambiguous. We have proven skill investing across all aspects of public markets, in equity, fixed income and multi asset. With increasingly significant capabilities in private markets, especially in infrastructure and private credits, our clients can benefit from unique investment

opportunities that can be accessed only through active management. Committed to sustainable investing for more than two decades, we produce dedicated research, offer specialist products and are engaged with the companies in which we invest in this area of significant and growing importance.

Decisions powered by knowledge

With access to a breadth of data, analysis and proprietary research, our investment teams enjoy an information advantage. That's critical because being a first mover is key

to capitalising on new trends. Our global research platform enables collaboration across teams and asset classes, creating a global, multidimensional view of opportunities.
