Manager's Comments

The offshore Renminbi (CNH) depreciated by 1.8% against the USD in November to 7.25 owing to Donald Trump winning the US election and announcing a 10% tariff on Chinese exports, as well as a disappointing China's NPC meeting which focused solely on resolving local government debt risk without announcing policies for other areas of concern such as the property sector nor domestic consumption. Economic data was mixed. Chinese inflation data was softer than expected at 0.3% year-on-year in October. Industrial production were lower than expected but retail sales surprised on the upside. On policy front, the PBoC opted to keep its 5-year loan prime rate constant in line with expectation.

Source: All fund data quoted from Allianz Global Investors/HSCB/IDS GmbH, as at 30/11/2024, unless stated otherwise.

The performance is calculated on NAV-to-NAV basis, with net income reinvested, in HKD.

All figures are shown as at/or referenced using the last business day of the month unless otherwise indicated.

¹ "Cash and others" represents cash at call, account receivable and account payable.

² "Top 10 Holdings" does not include "cash and others" which represents cash at call, account receivable and account payable.

* The Fund Size quoted includes all share classes of the Fund.

Information herein is based on sources we believe to be accurate and reliable as at the date it was made. We reserve the right to revise any information herein at any time without notice. No offer or solicitation to buy or sell securities and no investment advice or recommendation is made herein. In making investment decisions, investors should not rely solely on this material but should seek independent professional advice. Investing in fixed income instruments (if applicable) may expose investors to various risks, including but not limited to creditworthiness, interest rate, liquidity and restricted flexibility risks. Changes to the economic environment and market conditions may affect these risks, resulting in an adverse effect to the value of the investment. During periods of rising nominal interest rates, the values of fixed income instruments (including short positions with respect to fixed income instruments) are generally expected to decline. Conversely, during periods of declining interest rates, the values are generally expected to rise. Liquidity risk may possibly delay or prevent account withdrawals or redemption. Investment involves risks, in particular, risks associated with investment in emerging and less developed markets. Past performance is not indicative of future performance.

Investors should read the offering documents for further details, including the risk factors, before investing. This material and website have not been reviewed by the Securities and Futures Commission of Hong Kong. Issued by Allianz Global Investors Asia Pacific Limited.

Allianz Global Investors Asia Pacific Limited (32/F, Two Pacific Place, 88 Queensway, Admiralty, Hong Kong) is the Hong Kong Representative and is regulated by the Securities and Futures Commission of Hong Kong. (54/F, One Island East 18 Westlands Road, Quarry Bay, Hong Kong).

基金經理評論

特朗普當選下屆美國總統並宣佈對中國出口貨徵收10%關稅，並且中國的全國人大會議僅專注於解決地方政府債務風險，而未針對其他受關注領域（如房地產業或國內消費）推出任何政策，令市場人士感到失望，離岸人民幣兌美元在11月份貶值1.8%至7.25。經濟數據好壞參半，中國10月份通脹數據按年上升0.3%，較預期疲軟。工業生產低於預期，但零售銷售卻意外上升。政策方面，中國人民銀行選擇維持5年期貸款最優惠利率與預期一致。
