Allianz Choice Flexi Balanced Fund

Market Review

Global bond markets experienced significant volatility but ended the 12-month period ending 30 September 2024 with lower yields, as global central banks began on their interest rate easing cycle. Global bonds began the period on a weak note, as investors came to terms with interest rates staying higher for longer than previously anticipated. This led global bond yields to hit multi-year highs in October, including 10-year US Treasury yield which rose above 5% for the first time since 2007. Global bond markets subsequently saw mixed performance before rallying in the third quarter of the 2024 as both inflation and economic activity indicators softened and global central banks broadly transitioned to easing policy rates. Over the third quarter, the US Federal Reserve (Fed) conducted their first policy easing action with a 50 bps policy rate cut, as well as forward guidance of further interest rate reductions, while the ECB and Bank of England also lowered borrowing costs. The Bank of Japan diverged, raising rates to 0.25% as it signaled confidence in sustained inflation above 2%. The US 10-year Treasury yield fell to 3.78% by end of the third quarter. European and UK yields also declined, reflecting weakening growth and dovish outlooks.

Global equity rallied in the 12-month period ending 30 September 2024. Sentiment was buoyed by the US Federal Reserve's decision to start cutting rates and China's announcement of the largest stimulus measures since the pandemic. US shares rallied the most and outperformed Europe and Asia.

Outlook

With Mr Trump being elected as the next US President, bond volatility may remain in the coming year. Nonetheless, inflation prospects have improved with core inflation rates inching back towards central banks' targets in the major markets. This has reinforced expectation of an interest rate cutting cycle in the US in the coming year. For fixed income portfolio, we favor adding short to intermediate part of the curve upon sell-off in rates, which would remain supportive from the synchronized easing cycle. Within equities, we continue to be selective and target stocks which have a long pathway of market share gains or market growth, which should help to mitigate some of the risk on the tug of war on interest rates, Trump Tariffs and slowing economy.

Allianz Choice Asian Fund

Market Review

Regional Asia equities rallied strongly amid optimism over the prospect for lower interest rates and the announcement of substantial stimulus measures from the Chinese authorities in the closing days of the review period. A weaker tone to the US dollar was also helpful.

Taiwan equities led the way driven by robust gains from semiconductor stocks which were buoyed by artificial intelligence-related developments. Indian equities also experienced another strong year, supported by macro-economic growth and positive corporate earnings momentum. In ASEAN, markets also generally performed well. With the tariff war between the US and China showing no sign of ending, the region is benefitting from the relocation of production facilities from China to more geopolitically neutral Southeast Asia. While China stocks were subdued for much of the period, they rallied strongly towards the end of the third quarter after the announcement of the biggest monetary stimulus since the pandemic.

Outlook

We have a constructive longer-term view on the regional outlook. The peak of the US rate cycle should provide a supportive overall backdrop. Overall, valuations generally remain at reasonable levels.

The outlook in China also looks to be improving with the recent slew of policy measures. It is, nonetheless, still unclear how large the latest round of China stimulus will be and how effectively it will be implemented. While the recent policy initiatives have been successful in jumpstarting markets and boosting domestic confidence, eventually it will still be necessary to address more structural problems related to the property sector as well as the broad-based deflationary pressures.

Within the region, we are finding a number of attractively-valued structural growth stories in South Asia that are less impacted by geopolitical risks. In particular, the more favorable demographics, rising consumption power, and reordering of supply chains are boosting the growth outlook across ASEAN markets and India.

We have also recently increased the allocation to China as we expect some of the previous market headwinds to ease as we move into the new year.

At a sector level at the end of the period, the fund is overweight in financials and real estate, offset by relatively limited allocations to materials and industrials. This reflects bottom-up ideas expected to benefit from the region's economic growth and structural trends in the coming years.

Allianz Choice Lifestyle Funds (Allianz Choice Balanced Fund, Allianz Choice Capital Stable Fund, Allianz Choice Growth Fund and Allianz Choice Stable Growth Fund)

Market Review

Global equities climbed sharply over the 12 months to end September 2024. Shares were initially buoyed by the US Federal Reserve's pivot to a more dovish stance in the final quarter of 2023. Stocks made further progress over the first half of 2024, although the gains were mostly driven by a narrow range of technology companies that stood to benefit the most from the growing use of generative AI. This was followed by a rotation away from highly priced growth stocks in the third quarter as investors favoured more defensive value shares given concerns over slowing US economic growth. While this caused some volatility, growing speculation that US rates would be cut for the first time in four years helped to support overall valuations, as did China's announcement of the largest stimulus measures since the pandemic.

Global bonds delivered robust gains, with yields falling sharply, as easing inflation rates helped sentiment swing from fears that central banks may tighten rates to expectations of multiple rate cuts in 2024. The yield on the 10-year US Treasury bond, which had peaked around 5%, closed the 12 months near 3.8%. Meanwhile, the 10-year German Bund yield closed the review period around 2.1%, having touched 3.0% in mid-October 2023. Japanese government bonds were the exception, with yields rising modestly as the Bank of Japan finally started to tighten monetary policy.

Inflation eased, with headline rates falling back towards official targets. Canada became the first G7 nation to cut rates, with the European Central Bank swiftly following in June. While the US Federal Reserve waited until September, it then surprised the markets with a 50-basis-point reduction as concerns grew that the US economy was slowing. In contrast, the Bank of Japan, which has been out of step with other central banks, finally exited its below-zero interest rate policy as it became confident that inflation was sustainably above 2%. Meanwhile, the People's Bank of China cut rates as growth remained subdued and the country flirted with deflation.

Outlook

We maintain a constructive stance on global equities. However, fundamental indicators such as industrial output and global trade are expected to weaken further at a global level, and stickier-than-expected inflation could be potential downside risks to global equities. Regionally, we continue to favor the US in developed markets, while acknowledging consistent upward revisions in corporate earnings for emerging market equities. We are positive on US equities as risky assets should be well supported by the soft-landing narrative as well as more accommodative monetary policy. The settlement of the US election and the ceasefire deal in Gaza also reduced some uncertainty in the market, favoring the overall equity market. We also continue to favor HK/China equities as additional stimulus measures from the People's Bank of China and the Chinese government in late September further boosted sentiment. We hold a neutral view on Europe, Japan and Asia Pacific ex Japan markets.

**Allianz Choice Lifestyle Funds (Allianz Choice Balanced Fund, Allianz Choice Capital Stable Fund, Allianz Choice Growth Fund and Allianz Choice Stable Growth Fund)
(continued)**

For global bonds, the outcome of the US election – and its implications for future US trade policy – could be the biggest challenge to a constructive global growth outlook, leading to further bond market volatility.

In the US, the labour market is loosening from a tight position, wage growth and spending patterns do not point to a sharp slowdown. Overall economy is still relatively resilient and points to a soft landing, this should allow the Fed to proceed the easing path with a data-dependent approach. In Europe, the ECB cut rates by 25bp to 3.25% in October 2024 as expected, and accompanied by more “dovish” communication, making a cut in December plausible. That could lend support to further yield curve steepening, primarily coming from the more policy-anchored front end. In Japan, with recent Tokyo CPI showing costs being passed on to services prices, we think the BOJ is likely to make another policy rate hike in the next few months once the political uncertainties abroad and at home dissipate, and Japan’s growth and inflation data give further support to the BoJ’s own projections.

Manager's report (continued)

Allianz Choice China A-Shares Fund

Market Review

Although China A Shares delivered positive returns in the last year, much of the improvement only happened in the final weeks of the period.

For much of the year, the market remained quite weak against a backdrop of slowing economic momentum and a weakening property market in particular. These macro headwinds weighed heavily on corporate earnings as well as undermining investor sentiment.

Towards the end of September, China launched a series of wide-ranging policy initiatives designed to provide support both to the real economy and also to domestic equity markets. There appeared to be two catalysts for this move. The first was the weakness of China's economic data which put at risk the 2024 GDP growth target of "around 5%". The second was the US Federal Reserve cutting interest rates. This lowered the interest rate differential between China and the US and consequently provided the People's Bank of China with significant additional flexibility in their monetary policy.

Outlook

Overall we believe the recent pivot to a more pro-growth policy stance in China should help to provide a floor to China equity markets. In a more optimistic scenario, it also potentially sets the scene for a more sustained market rally.

While the policy measures have been successful in jumpstarting markets and boosting domestic confidence, eventually it will still be necessary to address more structural problems, especially related to the property sector as well as broad-based deflationary pressures. As such, we expect there will be further policy announcements. As a result, we are now in a situation where the government is easing both monetary and fiscal policies, and actively looking to boost asset prices, which should be a more supportive environment for equity markets.

The portfolio strategy continues to focus on investing in stocks which meet the criteria of growth, quality and valuation. As market sentiment stabilizes and confidence returns, we expect that stocks underpinned by a resilient secular growth outlook will again outperform.

At the end of the reporting period, the largest overweight positions in the portfolio were in the consumer discretionary and industrial sectors. Conversely the portfolio is underweight in health care and real estate. The sector allocations reflect where we are finding the most attractive bottom-up stock opportunities.

Allianz Choice Greater China Fund

Market Review

Although China and Hong Kong equities delivered positive returns in the last year, much of the improvement only happened in the final weeks of the period.

For much of the year, the market remained quite weak against a backdrop of slowing economic momentum and a weakening property market in particular. These macro headwinds weighed heavily on corporate earnings as well as undermining investor sentiment.

Towards the end of September, China launched a series of wide-ranging policy initiatives designed to provide support both to the real economy and also to domestic equity markets. There appeared to be two catalysts for this move. The first was the weakness of China's economic data which put at risk the 2024 GDP growth target of "around 5%". The second was the US Federal Reserve cutting interest rates. This lowered the interest rate differential between China and the US and consequently provided the People's Bank of China with significant additional flexibility in their monetary policy.

The technology-heavy market of Taiwan, on the other hand, delivered robust gains buoyed by artificial intelligence-related developments. Semiconductor stocks led the way, supported by improved demand and pricing across the supply chain.

Outlook

Overall we believe the recent pivot to a more pro-growth policy stance in China should help to provide a floor to China equity markets. In a more optimistic scenario, it also potentially sets the scene for a more sustained market rally.

While the policy measures have been successful in jumpstarting markets and boosting domestic confidence, eventually it will still be necessary to address more structural problems, especially related to the property sector as well as broad-based deflationary pressures. As such, we expect there will be further policy announcements. As a result, we are now in a situation where the government is easing both monetary and fiscal policies, and actively looking to boost asset prices, which should be a more supportive environment for equity markets.

In Taiwan, we believe the equity market should continue to benefit from increased capital investment related to artificial intelligence applications. We believe artificial intelligence should be a structural driver that has the potential to deliver productivity gains across many parts of the global economy.

In terms of positioning, at the end of the review period the portfolio is overweight in the consumer staples and technology sectors, whilst being underweight in the telecommunication and energy sectors.

Manager's report (continued)

Allianz Choice Global Equity Fund

Market review

Global equities climbed sharply over the 12 months to end of September 2024. Shares were initially buoyed by the US Federal Reserve's pivot to a more dovish stance in the final quarter of 2023. Stocks made further progress over the first half of 2024, although the gains were mostly driven by a narrow range of technology companies that stood to benefit the most from the growing use of generative AI. This was followed by a rotation away from highly priced growth stocks in the third quarter as investors favoured more defensive value shares given concerns over slowing US economic growth. While this caused some volatility, growing speculation that US rates would be cut for the first time in four years helped to support overall valuations, as did China's announcement of the largest stimulus measures since the pandemic.

US equities comfortably outperformed the rest of the developed world as the S&P 500 hit a series of record highs, closing the period at a fresh peak. Solid corporate earnings and hopes of significant interest cuts in 2025 underpinning the performance of the index. After racing ahead in the first six months of the year, the technology heavy Nasdaq took a brief pause in July amid fears that valuations were stretched. By the end of September, however, most of the lost ground had been regained. There were double digit returns in Europe, where the German DAX index closed close to a record peak, the UK and Japan. Chinese equities also posted double digit gains but it was a rollercoaster 12 months, as a Real Estate crisis and underwhelming economic activity weighed on the market for long periods. Wide ranging stimulus measures announced by Beijing towards the end of the period saw Chinese equities rally strongly to end the period on a positive note.

Inflation eased, with headline rates falling back towards official targets. Canada became the first G7 nation to cut rates, with the European Central Bank swiftly following in June. While the US Federal Reserve waited until September, it then surprised the markets with a 50-basis-point reduction as concerns grew that the US economy was slowing. In contrast, the Bank of Japan, which has been out of step with other central banks, finally exited its below-zero interest rate policy as it became confident that inflation was sustainably above 2%. Meanwhile, the People's Bank of China cut rates as growth remained subdued and the country flirted with deflation.

Outlook

Following the clear results of the US election, where Donald Trump eased to a clean sweep of the Senate and the House of Representatives, the outlook for risk assets such as equities has become more favourable as the market anticipates the proclaimed 'pro-growth policies' of the administration in waiting. Although economic resilience can be observed in most developed countries, the proposed lavish spending and deregulation could boost the US economy – at least in the short term- further widening the growth gap between developed market economies. The mooted tariffs for trading partners of the US could also dampen the growth outlook for these regions, especially within emerging markets.

Allianz Choice Global Equity Fund (continued)

It remains to be seen if the rhetoric of an election campaign feeds through to legislation, but the impact of policies will undoubtedly be felt throughout the world. Fiscal largesse – together with higher tariffs, tougher immigration policy and looser regulations – tends to be inflationary. In response, the US Federal Reserve may moderate its easing cycle, potentially supporting the dollar. Mr Trump has also pledged to impose a 20% blanket levy on all US imports, plus a 60-100% tax on Chinese products. The assumption is that this is a negotiation tactic for better deals on US exports, and that the levels suggested will not be reached, but any tariff hikes that do materialise will likely trigger retaliation by other economies. We foresee more regional nearshoring and onshoring as companies diversify their manufacturing bases and supply chains – a move that could strain balance sheets. Higher tariffs could hit European and emerging market stocks, particularly those reliant on the US market, such as makers of luxury goods, cars, aircraft producers and steel companies. Navigating potentially wide disparities in performance between winners and losers within sectors and themes and between regions will require active investment management.

Outside the US, China recently announced a new USD1.4 trillion stimulus package designed to help restructure local government debt and support the economy's move away from reliance on the property sector. The size of the stimulus disappointed some observers. However, the move is certainly a step in the right direction and more action from the central government is anticipated as the direction of the new administration in Washington becomes clearer. Recent data in China points to a stabilisation of the macroeconomic environment, and even a rebound in the case of the financial sector. And while a good deal of investor scepticism about China remains, recent initiatives show regulators are actively easing fiscal and monetary policy and seeking to boost asset prices – a very different stance to just a few months ago.

Considering our portfolio, we believe when the current cyclical effects recede (in industries such as medtech, construction, semiconductors, and the consumer space), our stocks that are currently weaker can recover quickly. In the US market de-regulation could see a broadening of stock performance away from just the mega caps., with pockets of high valuations retracting, and increasing AI adoption creating broader opportunities within the technology sector. Lower rates and a more buoyant economy should bring support to our consumer names and overall, accelerate growth above value once again. We remain optimistic about the year ahead.

Manager's report (continued)

Allianz Choice Hong Kong Fund

Market Review

Although Hong Kong equities delivered positive returns in the last year, much of the improvement only happened in the final weeks of the period.

For much of the year, the market remained quite weak against a backdrop of slowing economic momentum and a weakening property market in particular. These macro headwinds weighed heavily on corporate earnings as well as undermining investor sentiment.

Towards the end of September, China launched a series of wide-ranging policy initiatives designed to provide support both to the real economy and also to domestic equity markets. There appeared to be two catalysts for this move. The first was the weakness of China's economic data which put at risk the 2024 GDP growth target of "around 5%". The second was the US Federal Reserve cutting interest rates. This lowered the interest rate differential between China and the US and consequently provided the People's Bank of China with significant additional flexibility in their monetary policy.

Outlook

Overall we believe the recent pivot to a more pro-growth policy stance in China should help to provide a floor to China and Hong Kong equity markets. In a more optimistic scenario, it also potentially sets the scene for a more sustained market rally.

While the policy measures have been successful in jumpstarting markets and boosting domestic confidence, eventually it will still be necessary to address more structural problems, especially related to the property sector as well as broad-based deflationary pressures. As such, we expect there will be further policy announcements. As a result, we are now in a situation where the government is easing both monetary and fiscal policies, and actively looking to boost asset prices, which should be a more supportive environment for equity markets.

In terms of positioning, at the end of the review period, the portfolio is positioned with relatively close to benchmark sector allocations. The largest sector overweight is technology, while the largest underweight is financials.

Allianz Choice Oriental Fund

Market Review

Regional Asia equities rallied strongly amid optimism over the prospect for lower interest rates and the announcement of substantial stimulus measures from the Chinese authorities in the closing days of the review period. A weaker tone to the US dollar was also helpful.

Japanese equities delivered double-digit gains over the period. The first half of 2024 was particularly strong, with both the Nikkei 225 Index and broader-based TOPIX Index surpassing previous all-time highs as markets were buoyed by positive corporate earnings, a weak yen and robust overseas interest, helped in part by corporate governance reforms. However, after peaking in mid-July, shares subsequently slumped as the Japanese yen surged on the belief that the Bank of Japan was starting to embark on a monetary policy tightening path.

Taiwan equities were driven by robust gains from semiconductor stocks, which were buoyed by artificial intelligence-related developments. Indian equities also experienced another strong year, supported by macro-economic growth and positive corporate earnings momentum. In ASEAN, markets also generally performed well. With the tariff war between the US and China showing no sign of ending, the region is benefitting from the relocation of production facilities from China to more geopolitically neutral Southeast Asia. While China stocks were subdued for much of the period, they rallied strongly towards the end of the third quarter after the announcement of the biggest monetary stimulus since the pandemic.

Outlook

We maintain a constructive longer-term view on the regional outlook. The peak of the US rate cycle should provide a supportive overall backdrop. Overall, valuations generally remain at reasonable levels.

The outlook in China also looks to be improving with the recent slew of policy measures. It is, nonetheless, still unclear how large the latest round of China stimulus will be and how effectively it will be implemented. While the recent policy initiatives have been successful in jumpstarting markets and boosting domestic confidence, eventually it will still be necessary to address structural problems related to the property sector as well as the broad-based deflationary pressures.

Separately, we believe that structural drivers remain in place for a more positive outlook in Japan. In particular, the combination of higher inflation as well as ongoing governance reforms should contribute both to improved earnings as well as a greater focus on shareholder value. We also continue to see the yen as fundamentally undervalued.

Manager's report (continued)

Allianz Choice HK\$ Liquidity Fund and Allianz Choice HK\$ Cash Fund

Market Review

Hong Kong's money market rate fluctuated significantly over the 12 month period ending 30 September 2024 but ended the performance period lower. The moves were in-step with the decline in US money market rates, and was also supported by stable domestic liquidity conditions. The 3-month HIBOR declined by 109 bps to end at 4.18%. The Aggregate Balance stayed stable, with a small rise of HKD2.6bn over the period.

The Hong Kong dollar (HKD) mostly stayed in a stable range but ended 0.76% higher against the US dollar. Much of the strengthening in the HKD was fuelled by Chinese government measures to support the economy announced over the third quarter of 2024. China had announced a raft of easing policies including a liquidity backstop to shore up the equity market, leading to rally in HK equities and higher demand for HKD.

The Hong Kong economy continued to show a slow but steady recovery in growth, despite signs of weakening in consumption and retail spending. On the other hand, unemployment stayed resilient at the 3% throughout the period.

Outlook

In the US, overall economy is still relatively resilient and points to a soft landing, this should allow the Fed to proceed the easing path with a data-dependent approach. In HK, the latest policy address aimed at enhancing the city's development and growth, and this should improve market sentiment and allow the abundant liquidity condition in Hong Kong to remain.

Allianz Choice RMB Money Market Fund

Market Review

The offshore Renminbi (CNH) depreciated by 4.3% over the 12 months ending 30 September 2024, to end the period at 7.00 against the US dollar (USD). While the currency saw some recovery late last year, the CNH had traded weaker against the USD amidst broad USD strength and the weak macroeconomic backdrop in China. To maintain currency stability, the Chinese central bank (PBoC) continued efforts to provide a floor to the CNH, sending a strong signal on its bias to maintain a broadly stable currency through its' steady daily fixing. The depreciation trend only reversed in the third quarter of 2024, with CNH strength initially driven by USD weakness and unwinding of the FX carry trades. Subsequent policy easing policies announced by Chinese government in September continued to support the appreciation in the CNH over the quarter.

Yields on China government bonds (CGB) also came under pressure, on the back of the PBoC's accommodative policy stance, and the spike in demand for China government bonds. This prompted the PBoC to act to support CGB yields, which later stabilised. PBoC officials also indicated to the market on exploring the option of trading central government bills (CGBs) in the secondary market to manage the market liquidity, signaling to the market that yields might have approached the floor.

China's economy showed signs of sluggish growth over the period, with GDP slowing to 4.6% by the third quarter of 2024. Economic activity data through the performance period also indicated broad weakness in the economy, though economic data subsequently trended better, with improvements in the Caixin services PMI and higher headline inflation. Amidst the challenging macroeconomic backdrop, market participants were focused on the various policy measures including interest rate cuts and equity market support measures enacted by the Chinese government, to shore up the economy.

Outlook

We expect the Chinese government to ease monetary and fiscal conditions further and allow greater currency depreciation to support growth. The Chinese government has made rounds of policy easing in 2024, but in sum we view the process of monetary policy easing as just starting, the effort on real estate sector support as still on-going, while the extent of fiscal policy easing remains measured (aiming at "stabilization"). In the face of a challenging macro condition in 2025, we expect Beijing to allow deeper policy rate cuts, greater real estate sector support and more direct fiscal deployments to support consumption and/or increase social welfare disbursements. We expect to see meaningful but not excessive RMB depreciation against the USD as well to cushion part of the stress from Trump's tariff hikes.

Manager's report (continued)

Allianz Choice "Best Styles" Europe Fund

Market Review

European equities delivered double-digit gains over the 12 months to end September 2024, reaching a series of fresh highs throughout the period. Sentiment was lifted by growing hopes that the European Central Bank (ECB) would cut rates in 2024 – and may do so ahead of the US Federal Reserve. At a sector level, real estate companies rose the most, closely followed by information technology, financials and industrials. In contrast, the energy sector recorded negative returns

Euro-zone GDP growth improved from 0.1% in the fourth quarter of 2023 to 0.3% in the first quarter of 2024, before moderating slightly to 0.2% between April and June. Services activity returned to expansion in 2024 but manufacturing output continued to contract throughout the 12 months. Growth was particularly strong in Spain, the euro zone's fourth largest economy, but remained subdued at best in the region's largest economy, Germany. Early indications for the third quarter suggest momentum may have slowed. After being boosted by the Paris Olympics in August, the flash HCOB euro-zone composite purchasing managers' index (PMI) fell to 48.9 in September, the lowest level since January and below the 50 level that separates expansion from contraction for the first time in seven months.

Euro-zone inflation eased from 4.3% in September 2023 to 2.2% in August 2024, its slowest pace in three years and nearing the ECB's official target. However, with wage growth continuing to outstrip inflation, the ECB kept rates on hold for much of the review period, suggesting that it was too early to declare that the battle against rising prices had been won. Nevertheless, with growth subdued and inflation slowing, the ECB decided to cut rates by 25 basis points (bps) in June, its first reduction in five years, followed by a further 25-bps in September.

UK equities also delivered double-digit gains, but lagged euro-zone stocks. Having contracted by 0.3% in the final quarter of 2023, the UK economy posted growth of 0.4% and 0.5% in the first two quarters of 2024, despite the headwinds of industrial action. While a change in government mostly saw an end to the strikes, the new Labour government's stern warning over the state of public finances weighed on consumer sentiment ahead of its first budget. Nevertheless, the S&P Global UK Composite PMI moved back into expansion territory, helped by easing price pressures as inflation fell from 6.7% in September 2023 to 2.2% in August 2024. Having reduced rates by 25 bps in August, its first reduction in four years, the Bank of England kept rates on hold in September but signalled that rates would likely be cut again before year end.

Outlook

There are signs of a pick-up in Europe. Overall, companies should benefit from the central-bank rate cuts, which is why we continue to expect corporate profits to develop favourably. We are therefore still optimistic for equities and believe that market participants will begin to broaden their focus beyond a handful of highly capitalised technology stocks. Nevertheless, the US presidential elections in November and the persistent conflicts in the Middle East and in Ukraine might lead to increased volatility during the last few months of the year. Moreover, there is a risk of a setback in Europe, as France and Germany in particular need to resolve domestic policy difficulties, and growth and financial stability appear vulnerable. Against the background of dynamic developments, which harbour both opportunities and risks, an active approach should be helpful to respond quickly to changes in the market environment.

Allianz Choice “Best Styles” US Fund

Market Review

US stocks surged over the 12 months, with the market delivering one of the strongest gains globally, helped by outsized gains from a narrow band of AI-related stocks. The S&P 500 Index touched a series of record highs, closing the period at a fresh peak, underpinned by solid corporate earnings and growing hopes that the Federal Reserve (Fed) would start to cut rates in 2024. In contrast, the tech-heavy Nasdaq Composite Index hit a peak in early July, but subsequently fell back as investors rotated out of highly valued growth stocks into more defensive areas of the market.

For much of the period, there was little evidence that high interest rates were impacting the US economy. US GDP grew 3.4%, 1.4% and 3.0% on an annualised basis in the fourth quarter of 2023 and first two quarters of 2024, respectively. However, fears of a slowdown surfaced in the third quarter after US non-farm payrolls were far weaker than forecast, rising just 89,000 in July and 142,000 in August. However, other measures appeared to indicate the economy was in a good shape: the flash S&P Global US composite purchasing managers' index came in at 54.4 in September, driven by robust activity in the services sector although manufacturing activity contracted for a third consecutive month. While the University of Michigan consumer sentiment index fell below levels seen in the first quarter of 2024, it remained above levels seen towards the end of 2023.

Headline inflation fell from 3.7% in September 2023 to 2.5% in August 2024. While Fed chair Jay Powell indicated that interest rates were now likely at their peak, he spent much of the review period stressing the need to be “patient and let restrictive policy do its work”. That changed in August when Mr Powell signalled that rates were likely to be cut in September as he warned of rising risks to the labour market. In mid-September 2024, the US central bank cut rates for the first time in more than four years, implementing a larger-than-usual 50-basis-point reduction, with policymakers indicating further cuts were likely before year end and into 2025.

Outlook

From our vantage point, a “soft landing” is the most probable outcome for the US economy. However, the growth rate might remain below potential – a development which would increase downside risks. Overall, companies should benefit from the central-bank rate cuts, which is why we continue to expect corporate profits to develop favourably. We are therefore still optimistic for equities and believe that market participants will begin to broaden their focus beyond a handful of highly capitalised technology stocks. Nevertheless, the US presidential elections in November and the persistent conflicts in the Middle East and in Ukraine might lead to increased volatility during the last few months of the year. Against the background of dynamic developments, which harbour both opportunities and risks, an active approach should be helpful to respond quickly to changes in the market environment.

Manager's report (continued)

Allianz Choice Global Fixed Income Fund

Market Review

Global bond markets experienced significant volatility but ended the 12-month period ending 30 September 2024 with lower yields, as global central banks began on their interest rate easing cycle. Global bonds began the period on a weak note, as investors came to terms with interest rates staying higher for longer than previously anticipated. This led global bond yields to hit multi-year highs in October, including 10-year US Treasury yield which rose above 5% for the first time since 2007. Global bond markets subsequently saw mixed performance before rallying in the third quarter of the 2024 as both inflation and economic activity indicators softened and global central banks broadly transitioned to easing policy rates. Over the third quarter, the US Federal Reserve (Fed) conducted their first policy easing action with a 50 bps policy rate cut, as well as forward guidance of further interest rate reductions, while the ECB and Bank of England also lowered borrowing costs. The Bank of Japan diverged, raising rates to 0.25% as it signaled confidence in sustained inflation above 2%. The US 10-year Treasury yield fell to 3.78% by end of the third quarter. European and UK yields also declined, reflecting weakening growth and dovish outlooks.

The US dollar initially strengthened against other major currencies, with the Fed's guidance that US rates would likely remain higher for longer. The British pound also rallied against the euro in the first half of 2024, as the Bank of England kept rates on hold while the ECB cut rates. Despite a modest rate increase from the BOJ, the Japanese yen continued to weaken as monetary policy remained far more accommodative than in other markets. This trend took a reversal over the third quarter of 2024 as the US dollar weakened on the back of signs of slowing US economic activity which led to growing speculation that the US Federal Reserve may cut rates more than once in 2024. In contrast, the Japanese yen, which had started the quarter at its weakest level in almost 40 years against the greenback, rallied sharply as the Bank of Japan signalled it was committed to tightening monetary policy. While both the euro and British pound lost ground against the yen, they appreciated versus the dollar, with sterling edging ahead as ongoing inflationary pressures meant the Bank of England kept rates on hold in September while the European Central Bank cut rates.

Outlook

Looking into 2025, the monetary and fiscal policy stance – particularly outside the euro zone – provides a supportive backdrop for global growth prospects, although we expect economic trajectories to diverge. Debt fundamentals, the transmission of monetary policy and the degree of fiscal support will determine these different trajectories. Mr Trump's second term as US president – and its implications for future US trade policy – is likely to be the biggest challenge to a constructive global growth outlook. Mr Trump's policies may lead to another year of elevated bond and FX market volatility.

In the US, the economy remains relatively resilient with business activity indicators improving, probability of a soft landing in 2025 has increased particularly after pre-emptive, front-loaded rate cuts by the Fed, this should allow the Fed to proceed the easing path with a data-dependent approach. On the other hand, sentiment in the euro area's manufacturing and services sectors remained weak and raised the chances of a larger rate cut at the December ECB policy meeting. Political uncertainty in France with potential fall of the current government would keep French spread volatile. In Japan, headline inflation surprised to the upside and early signs for the spring wage negotiations suggest further wage growth in 2025. We believe the BOJ would continue to tighten policy further.

Allianz Choice Japan Fund

Market Review

Japanese equities delivered double-digit gains over the period. The first half of 2024 was particularly strong, with both the Nikkei 225 Index and broader-based TOPIX Index surpassing previous all-time highs as markets were buoyed by positive corporate earnings, a weak yen and robust overseas interest, helped in part by corporate governance reforms. However, after peaking in mid-July, shares subsequently slumped as the Japanese yen surged, buoyed by growing hopes that the Bank of Japan would finally start to tighten monetary policy meaningfully.

The Japanese economy contracted 2.3% on an annualised basis in the first three months of 2024 and then grew 2.9% between April and June. Growth appeared to remain robust in the third quarter, with the au Jibun Bank Japan composite purchasing managers' index coming in at 52.5 in September, only marginally lower than August's 15-month high of 52.9, as services activity remained positive.

With the Bank of Japan becoming more confident that inflation was sustainably above its 2% target, in March the Japanese central bank finally ended its below-zero interest rate policy and announced it would start to scale back its bond-buying programme. This was followed by a further rate increase in July which took rates to 0.25%, the highest level since 2008.

Outlook

Overall we believe that structural drivers remain in place for a more positive outlook in Japan. In particular, the combination of higher inflation as well as ongoing governance reforms should contribute both to improved earnings as well as a greater focus on shareholder value. We also see the Japanese yen as fundamentally undervalued.

Under these circumstances, the portfolio has focused on stocks where we see potential for enhanced shareholder returns and an improved earnings outlook. Overall the portfolio is diversified across the market with sector allocations relatively close to the benchmark.

As at the end of the period, the largest overweight sector positions were in the consumer staples and consumer discretionary sectors. This was balanced with underweight exposure to information technology and utilities. Overall, we continue to look for opportunities to add to conviction stocks when valuations are at attractive levels.

The highest and lowest prices are stated respectively at the issue and redemption price in respective denomination currency of the unit class during each of the financial years/periods. For financial reporting purposes under HKFRSs, net asset value is stated at a value derived from investments pricing at last traded market prices from 1 October 2013. Prior to 1 October 2013, net asset value is stated at a value derived from investments pricing at bid prices.

⁽¹⁾ Ordinary Class (RMB) of Allianz Choice RMB Money Market Fund was fully redeemed on 23 September 2020.

The FER is based on the Sub-Funds' expense and the average net asset value per unit for the financial year.

(g) Investment objectives and policy

Each of the Sub-Funds has a separate and distinct investment objective and policy determined by the risk profile of the relevant sub-fund, the details of which are as follows: Except for those as stated below, there have been no changes to the investment objectives and policies for the Sub-Funds during the year.

Allianz Choice Flexi Balanced Fund

The Sub-Fund aims to achieve performance target not related to an index, and long term capital preservation with minimized short term volatility by investing in a diversified portfolio of global equities and fixed-interest securities. This Sub-Fund is expected to adopt a dynamic asset allocation strategy in order to achieve optimal return under evolving market conditions. In strong equity markets, the Sub-Fund may invest up to 50% of its assets in equities. In weaker equity market conditions, the portfolio of the Sub-Fund may be rebalanced to preserve capital through the holding of fixed-interest securities which satisfy the minimum credit rating requirements set out by MPFA. If market conditions so require, the Sub-Fund may hold no equities and invest fully in fixed interest securities and cash only. Fixed-interest securities and cash are extensively used as a buffer when the general equity outlook seems uninspiring, but they may be reduced when it is deemed appropriate. It is expected that under normal circumstances, at least 75% of the assets of the Sub-Fund will be invested in fixed-interest securities and cash in order to minimize short term volatility. Up to 100% of Sub-Fund assets may be held in deposits, cash and/or invested directly in money market instruments and/or (up to 10% of Sub-Fund assets) in money market funds on a temporary basis for liquidity management and/or defensive purpose and/or any other exceptional circumstances, and if the Manager considers it in the best interest of the Sub-Fund.

Allianz Choice Asian Fund

The Sub-Fund aims to achieve long term capital growth by investing primarily in Asian equities, principally in equity markets of Asia.

The Sub-Fund will invest:

- at least 70% of its assets in equities of companies that are incorporated in Asian countries/regions or that derive a predominant portion of their revenue and/or profits from Asian countries/regions which may include but are not limited to Mainland China, Hong Kong, Singapore, South Korea, Taiwan, India, Philippines, Thailand and Malaysia, but not including Japan; and
- up to 30% of its assets in other markets or securities other than those mentioned above such as cash and/or money market instruments and/or short term fixed-interest securities which satisfy the minimum credit rating requirements set out by MPFA.

Investment report (Unaudited) (continued)

(g) Investment objectives and policy (continued)

Allianz Choice Asian Fund (continued)

The Sub-Fund may invest less than 30% of its NAV in China A-Shares, either (i) directly via the Stock Connect and/or the QFI Regime or (ii) (where applicable) indirectly through other eligible instruments (if any) as permitted by the relevant regulations from time to time.

The equities invested by the Sub-Fund are broadly diversified (in terms of industry sectors and/or companies of a particular capital size). The Sub-Fund targets to mainly invest in equities that are listed and traded on stock exchange approved by MPFA.

The Sub-Fund currently does not intend to engage in stock lending transactions and/or repurchase agreements and the Sub-Fund will not engage in reverse-repurchase agreements. The Sub-Fund will not enter into any financial futures contracts or financial option contracts other than for hedging purpose.

The Sub-Fund aims to achieve long term capital growth by investing primarily in Asian equities, principally in equity markets of Asia.

Allianz Choice Balanced Fund

The Sub-Fund aims to achieve a high level (above market) of overall return over the long term by investing in a diversified portfolio of global equities and fixed-interest securities. This Sub-Fund is expected to invest 70% of its assets in equities and 30% in fixed-interest securities. The fixed income portion will consist of a range of instruments issued in countries around the world. The equity portion of the Sub-Fund will be invested primarily in the Hong Kong, Japan, North American and European markets with a smaller proportion, being invested, at the discretion of the Manager, in other Asian countries and emerging markets. Such smaller proportion of the equity portion of the Sub-Fund may be invested in China A-Shares, in which the Sub-Fund may invest less than 30% of its equity portion. For the avoidance of doubt, the limit of the Sub-Fund's investment in China A-Shares is calculated based on the Sub-Fund's equity portion (instead of the Sub-Fund's NAV).

The Sub-Fund aims to achieve a high level (above market) of overall return over the long term by investing in a diversified portfolio of global equities and fixed-interest securities. This Sub-Fund is expected to invest 70% of its assets in equities and 30% in fixed-interest securities. The fixed income portion will consist of a range of instruments issued in countries around the world. The equity portion of the Sub-Fund will be invested primarily in the Hong Kong, Japan, North American and European markets with a smaller proportion, being invested, at the discretion of the Manager, in other Asian countries and emerging markets.

Allianz Choice Balanced Fund (continued)

This Sub-Fund is a fund of funds investing substantially all its assets in (i) other Sub-Funds of the Trust (“Underlying APIFs”) and/or (ii) ITCIS (“Underlying ITCIS”) as determined by the Manager from time to time to be appropriate to provide the desired investment exposure for this Sub-Fund based on its investment objective and policy. All Underlying APIFs are approved as APIFs by the MPFA and authorised by the SFC and all Underlying ITCIS are approved by the MPFA. In granting such approval and authorisation neither the MPFA nor the SFC makes any official recommendation or endorsement of any Underlying APIF or Underlying ITCIS (as the case may be) nor do they guarantee the commercial merits of any Underlying APIF or Underlying ITCIS or its performance. They do not mean any Underlying APIF or Underlying ITCIS is suitable for all investors nor endorse its suitability for any particular investor or class of investors.

The Sub-Fund may invest at least 60% and up to 80% of its assets in global equities (out of which less than 30% of such equity portion of the Sub-Fund may be invested in China A-Shares) and at least 20% and up to 40% of its assets in fixed-interest securities via the Underlying APIFs and/or Underlying ITCIS. The Sub-Fund will invest in 5 or more Underlying APIFs and/or Underlying ITCIS.

It is expected that the Sub-Fund will invest 70% to 100% of its NAV in the Underlying APIFs and not more than 30% of its NAV in the Underlying ITCIS. The Underlying APIFs and the Underlying ITCIS will be actively selected and the extent of the Sub-Fund’s investment in such underlying funds will be allocated by the Manager by reference to their underlying investments. In particular, the Sub-Fund may invest up to 40% of its total NAV in the Allianz Choice Global Fixed Income Fund which aims to achieve long-term capital growth and income primarily through investment in a diversified portfolio of global fixed-income securities denominated in multiple currencies. For details, please refer to the section headed “Investment Objectives and Policy” in “2. The Trust” of the Prospectus.

Through the Underlying APIFs and the Underlying ITCIS, the Sub-Fund will:

- primarily invest in equities which are broadly diversified (in terms of industry sectors and/or companies of a particular capital size) with a majority of which are listed and traded on stock exchange approved by MPFA; and
- invest in fixed-interest securities which carry a rating of BBB- or above (as rated by Standard & Poor’s) or Baa3 or above (as rated by Moody’s Investors Services Inc.) or which in the opinion of the Manager would be rated in the range of such rating and fulfil the minimum credit rating requirements set out by MPFA and broadly diversified, for example in terms of the number of issuers. Where the Underlying ITCIS in which the Sub-Fund invests tracks a bond index, such bond index will not have a significant portion of the constituent securities that do not satisfy the minimum credit rating requirements set out by MPFA.

Investment report (Unaudited) (continued)

(g) Investment objectives and policy (continued)

Allianz Choice Balanced Fund (continued)

The Sub-Fund may also hold cash for ancillary purposes. The Underlying ITCIS may engage in security lending transactions and/or repurchase agreements. The Sub-Fund and the Underlying APIFs will not enter into any financial futures contracts or financial option contracts other than for hedging purpose, although the Underlying ITCIS may enter into financial derivatives for hedging or non-hedging purpose.

This Sub-Fund is a fund of funds investing substantially all its assets in (i) other Sub-Funds of the Trust ("Underlying APIFs") and/or (ii) ITCIS ("Underlying ITCIS") as determined by the Manager from time to time to be appropriate to provide the desired investment exposure for this Sub-Fund based on its investment objective and policy. All Underlying APIFs are approved as APIFs by the MPFA and authorised by the SFC and all Underlying ITCIS are approved by the MPFA. In granting such approval and authorisation neither the MPFA nor the SFC makes any official recommendation or endorsement of any Underlying APIF or Underlying ITCIS (as the case may be) nor do they guarantee the commercial merits of any Underlying APIF or Underlying ITCIS or its performance. They do not mean any Underlying APIF or Underlying ITCIS is suitable for all investors nor endorse its suitability for any particular investor or class of investors.

The Sub-Fund may invest at least 60% and up to 80% of its assets in global equities and at least 20% and up to 40% of its assets in fixed-interest securities via the Underlying APIFs and/or Underlying ITCIS. The Sub-Fund will invest in 5 or more Underlying APIFs and/or Underlying ITCIS.

It is expected that the Sub-Fund will invest 70% to 100% of its NAV in the Underlying APIFs and not more than 30% of its NAV in the Underlying ITCIS.

The Underlying APIFs and the Underlying ITCIS will be actively selected and the extent of the Sub-Fund's investment in such underlying funds will be allocated by the Manager by reference to their underlying investments. In particular, The Sub-Fund may invest up to 40% of its total NAV in the Allianz Choice Global Fixed Income Fund which aims to achieve long-term capital growth and income primarily through investment in a diversified portfolio of global fixed-income securities denominated in multiple currencies. For details, please refer to the section headed "Investment Objectives and Policy" in "2. The Trust" of the Prospectus.

Through the Underlying APIFs and the Underlying ITCIS, the Sub-Fund will:

- primarily invest in equities which are broadly diversified (in terms of industry sectors and/or companies of a particular capital size) with a majority of which are listed and traded on stock exchange approved by MPFA; and
- invest in fixed-interest securities which carry a rating of BBB- or above (as rated by Standard & Poor's) or Baa3 or above (as rated by Moody's Investors Services Inc.) or which in the opinion of the Manager would be rated in the range of such rating and fulfil the minimum credit rating requirements set out by MPFA and broadly diversified, for example in terms of the number of issuers. Where the Underlying ITCIS in which the Sub-Fund invests tracks a bond index, such bond index will not have a significant portion of the constituent securities that do not satisfy the minimum credit rating requirements set out by MPFA.

Allianz Choice Balanced Fund (continued)

The Sub-Fund may also hold cash for ancillary purposes. The Underlying ITCIS may engage in security lending transactions and/or repurchase agreements. The Sub-Fund and the Underlying APIFs will not enter into any financial futures contracts or financial option contracts other than for hedging purpose, although the Underlying ITCIS may enter into financial derivatives for hedging or non-hedging purpose.

Allianz Choice Capital Stable Fund

The Sub-Fund aims to provide investors with capital preservation combined with steady capital appreciation over the long term by investing in a diversified portfolio of global equities and fixed-interest securities. This Sub-Fund is expected to invest 30% of its assets in equities and 70% in fixed-interest securities. The fixed income portion will consist of a range of instruments issued in countries around the world. The equity portion of the Sub-Fund will be invested primarily in the Hong Kong, Japan, North American and European markets with a smaller proportion, being invested, at the discretion of the Manager, in other Asian countries and emerging markets. Such smaller proportion of the equity portion of the Sub-Fund may be invested in China A-Shares, in which the Sub-Fund may invest in less than 30% of its equity portion in China A-Shares. For the avoidance of doubt, the limit of the Sub-Fund's investment in China A-Shares is calculated based on the Sub-Fund's equity portion (instead of the Sub-Fund's NAV).

The Sub-Fund aims to provide investors with capital preservation combined with steady capital appreciation over the long term by investing in a diversified portfolio of global equities and fixed-interest securities. This Sub-Fund is expected to invest 30% of its assets in equities and 70% in fixed-interest securities. The fixed income portion will consist of a range of instruments issued in countries around the world. The equity portion of the Sub-Fund will be invested primarily in the Hong Kong, Japan, North American and European markets with a smaller proportion, being invested, at the discretion of the Manager, in other Asian countries and emerging markets.

This Sub-Fund is a fund of funds investing substantially all its assets in (i) other Sub-Funds of the Trust ("Underlying APIFs") and/or (ii) ITCIS ("Underlying ITCIS") as determined by the Manager from time to time to be appropriate to provide the desired investment exposure for this Sub-Fund based on its investment objective and policy. All Underlying APIFs are approved as APIFs by the MPFA and authorised by the SFC and all Underlying ITCIS are approved by the MPFA. In granting such approval and authorisation neither the MPFA nor the SFC makes any official recommendation or endorsement of any Underlying APIF or Underlying ITCIS (as the case may be) nor do they guarantee the commercial merits of any Underlying APIF or Underlying ITCIS or its performance. They do not mean any Underlying APIF or Underlying ITCIS is suitable for all investors nor endorse its suitability for any particular investor or class of investors.

The Sub-Fund may invest at least 20% and up to 40% of its assets in global equities (out of which less than 30% of such equity portion of the Sub-Fund may be invested in China A-Shares) and at least 60% and up to 80% of its assets in fixed-interest securities via the Underlying APIFs and/or Underlying ITCIS.

It is expected that the Sub-Fund will invest 70% to 100% of its NAV in the Underlying APIFs and not more than 30% of its NAV in the Underlying ITCIS.

The Underlying APIFs and the Underlying ITCIS will be actively selected and the extent of the Sub-Fund's investment in such underlying funds will be allocated by the Manager by reference to their underlying investments. In particular, the Sub-Fund may invest up to 80% of its total NAV in the Allianz Choice Global Fixed Income Fund which aims to achieve long-term capital growth and income primarily through investment in a diversified portfolio of global fixed-income securities denominated in multiple currencies. For details, please refer to the section headed "Investment Objectives and Policy" in "2. The Trust" of the Prospectus.

The Sub-Fund may also hold cash for ancillary purposes. The Underlying ITCIS may engage in security lending transactions and/or repurchase agreements. The Sub-Fund and the Underlying APIFs will not enter into any financial futures contracts or financial option contracts other than for hedging purpose, although the Underlying ITCIS may enter into financial derivatives for hedging or non-hedging purpose.

Allianz Choice China A-Shares Fund

This Sub-Fund aims to attain long-term capital growth by investing primarily in China A-shares equity market.

The Sub-Fund will invest at least 70% of its NAV in China A-Shares equity market (including China A-Shares listed on ChiNext Market and/or the Science and Technology Innovation Board ("STAR Board")) via the Stock Connect and the QFI Regime. The Sub-Fund may invest up to 100% of its NAV in China A-Shares listed on ChiNext Market and/or the STAR Board. For the avoidance of doubt, the Sub-Fund will not invest 70% or more of its NAV in China A-Shares solely via the QFI Regime. The Sub-Fund is not subject to any limitation on the industry, sector or market capitalisation of the China A-Shares in which it may invest.

The Sub-Fund will invest less than 30% of its NAV in other markets or securities other than those mentioned above such as money-market instruments and/or cash for cash management purposes. The Sub-Fund will not invest in onshore debt instruments issued within Mainland China.

The Sub-Fund will not engage in stock lending transactions, repurchase agreements and/or reverse-repurchase agreements. The Sub-Fund will only enter into financial futures contracts, financial option contracts, warrants and/or currency forward contracts for hedging purpose and will not invest in any other financial derivative instruments. The Sub-Fund will seek to maintain an effective currency exposure of not less than 30% of its NAV to HK dollars.

Investment report (Unaudited) (continued)

(g) Investment objectives and policy (continued)

Allianz Choice Greater China Fund

The Sub-Fund aims to achieve long-term capital growth by investing primarily in (i) the equity markets of Hong Kong and Taiwan; or (ii) companies that derive a predominant portion of their revenue and/or profits from Greater China, which includes Mainland China, Hong Kong, Macau and Taiwan. The Sub-Fund may invest less than 30% of its NAV in China A-Shares either (i) directly via the Stock Connect and/or the QFI Regime or (ii) (where applicable) indirectly through other eligible instruments (if any) as permitted by the relevant regulations from time to time. The Sub-Fund will invest at least 70% of its assets (and normally up to 100%) in (i) and (ii) as stated above with the remaining invested in short term fixed-interest securities and/or cash for cash management purpose. The Sub-Fund will not enter into any financial futures contracts or financial option contracts other than for hedging purpose. The Sub-Fund will maintain the effective currency exposure to Hong Kong dollars of not less than 30% of its total NAV.

The Sub-Fund aims to achieve long-term capital growth by investing primarily in (i) the equity markets of Hong Kong and Taiwan; or (ii) companies that derive a predominant portion of their revenue and/or profits from Greater China, which includes mainland China, Hong Kong, Macau and Taiwan. The Sub-Fund will invest at least 70% of its assets (and normally up to 100%) in (i) and (ii) as stated above with the remaining invested in short term fixed-interest securities and/or cash for cash management purpose. The Sub-Fund will not enter into any financial futures contracts or financial option contracts other than for hedging purpose. The Sub-Fund will maintain the effect currency exposure to Hong Kong dollar of not less than 30% of its latest available NAV.

Allianz Choice Global Equity Fund

This Sub-Fund aims to attain long-term capital growth by investing primarily in global equity markets.

The Sub-Fund will invest:

- at least 70% of its NAV in equities of companies globally, with a focus on stock selection based on a combination of bottom-up parameters, fundamental analysis and individual merits of the stocks but free from benchmark, geographical and sector constraints; and
- less than 30% of its NAV in short-term fixed-interest securities and/or cash for cash management purposes.

The equities invested by the Sub-Fund are broadly diversified (in terms of industry sectors and/or companies of a particular capital size). The Sub-Fund targets to mainly invest in equities that are listed and traded on stock exchange approved by MPFA. Up to 10% of the Sub-Fund's NAV may be invested in China A-Shares, either directly via Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect or (where applicable) indirectly through other eligible instruments (if any) as permitted by the relevant regulations from time to time.

The Sub-Fund currently does not intend to engage in stock lending transactions and/or repurchase agreements and the Sub-Fund will not engage in reverse-repurchase agreements. The Sub-Fund will only enter into financial futures contracts, financial option contracts, warrants and/or currency forward contracts for hedging purpose and will not invest in any other financial derivative instruments. The Sub-Fund will seek to maintain a minimum level of 30% currency exposure to HK dollars.

Allianz Choice Growth Fund

This Sub-Fund aims to maximise long term overall returns by investing primarily in global equities. This Sub-Fund may invest in the countries comprised in the MSCI World Index which covers all the major world stock markets including those in Japan, North America, Asia and Europe.

This Sub-Fund is a fund of funds investing substantially all its assets in (i) other Sub-Funds of the Trust (“Underlying APIFs”) and/or (ii) ITCIS (“Underlying ITCIS”) as determined by the Manager from time to time to be appropriate to provide the desired investment exposure for this Sub-Fund based on its investment objective and policy. All Underlying APIFs are approved as APIFs by the MPFA and authorised by the SFC and all Underlying ITCIS are approved by the MPFA. In granting such approval and authorisation neither the MPFA nor the SFC makes any official recommendation or endorsement of any Underlying APIF or Underlying ITCIS (as the case may be) nor do they guarantee the commercial merits of any Underlying APIF or Underlying ITCIS or its performance. They do not mean any Underlying APIF or Underlying ITCIS is suitable for all investors nor endorse its suitability for any particular investor or class of investors.

The Sub-Fund may invest at least 80% and up to 100% of its assets in global equities and up to 20% of its assets in fixed-interest securities via the Underlying APIFs and/or Underlying ITCIS. Generally, the Sub-Fund is expected to invest 90% of its assets in global equities and 10% in fixed-interest securities via the Underlying APIFs and/or Underlying ITCIS. The Sub-Fund will invest in 5 or more Underlying APIFs and/or Underlying ITCIS. Through its investment in the Underlying APIFs and/or Underlying ITCIS, the Sub-Fund may have an exposure of less than 30% of its NAV to China A-Shares.

It is expected that the Sub-Fund will invest 70% to 100% of its NAV in the Underlying APIFs and not more than 30% of its NAV in the Underlying ITCIS.

The Underlying APIFs and the Underlying ITCIS will be actively selected and the extent of the Sub-Fund’s investment in such underlying funds will be allocated by the Manager by reference to their underlying investments. In particular, the Sub-Fund may invest up to 40% of its total NAV in the Allianz Choice Hong Kong Fund which aims to achieve long term capital growth by investing primarily in Hong Kong equities, including Chinese securities listed in Hong Kong. For details, please refer to the section headed “Investment Objectives and Policy” in “2. The Trust” of the Prospectus.

Through the Underlying APIFs and the Underlying ITCIS, the Sub-Fund will:

- primarily invest in equities which are broadly diversified (in terms of industry sectors and/or companies of a particular capital size) with a majority of which are listed and traded on stock exchange approved by MPFA; and
- invest in fixed-interest securities which carry a rating of BBB- or above (as rated by Standard & Poor’s) or Baa3 or above (as rated by Moody’s Investors Services Inc.) or which in the opinion of the Manager would be rated in the range of such rating and fulfil the minimum credit rating requirements set out by MPFA and broadly diversified, for example in terms of the number of issuers. Where the Underlying ITCIS in which the Sub-Fund invests tracks a bond index, such bond index will not have a significant portion of the constituent securities that do not satisfy the minimum credit rating requirements set out by MPFA.

The Sub-Fund may also hold cash for ancillary purposes. The Underlying ITCIS may engage in security lending transactions and/or repurchase agreements. The Sub-Fund and the Underlying APIFs will not enter into any financial futures contracts or financial option contracts other than for hedging purpose, although the Underlying ITCIS may enter into financial derivatives for hedging or non-hedging purpose.

Allianz Choice Hong Kong Fund

The Sub-Fund aims to achieve long term capital growth by investing primarily (i.e. not less than 70% of its NAV) in Hong Kong equities, including Chinese securities listed in Hong Kong. For the remaining portion of its assets, the Sub-Fund may invest less than 30% of its NAV in China A-Shares, which are related to Hong Kong by either being traded via the Stock Connect or having businesses in or relations to Hong Kong (e.g. part of the revenues being derived in Hong Kong and/or providing goods/services and/or having operations in Hong Kong). Such investment in China A-Shares may be made either (i) directly via the Stock Connect and/or the QFI Regime or (ii) (where applicable) indirectly through other eligible instruments (if any) as permitted by the relevant regulations from time to time.

The Sub-Fund aims to achieve long term capital growth by investing primarily in Hong Kong equities, including Chinese securities listed in Hong Kong.

Allianz Choice Oriental Fund

The Sub-Fund aims to provide investors with long-term capital appreciation and income by investing in debt securities, convertible debt securities and equities of companies in the Asia Pacific region including, but not limited to, Japan, Korea, Mainland China, Australia, Taiwan and Hong Kong. To achieve its investment objective, the Sub-Fund will invest approximately (i) between 75% and 100% of its assets in Asia Pacific equities and the rest in debt securities or convertible debt securities in strong equity market conditions; (ii) between 65% and 75% of its assets in Asia Pacific equities and the rest in debt securities and convertible debt securities in normal equity market conditions; and (iii) between 50% and 75% in Asia Pacific equities and the rest in debt securities or convertible debt securities in weak equity market conditions. The Sub-Fund may invest less than 30% of its NAV in China A-Shares, either (i) directly via the Stock Connect and/or the QFI Regime or (ii) (where applicable) indirectly through other eligible instruments (if any) as permitted by the relevant regulations from time to time. Up to 10% of the Sub-Fund's assets may be invested in non-Asia Pacific debt securities and convertible debt securities, such as US treasury inflation-protected securities and treasury bonds. The Sub-Fund will not enter into any financial futures contracts or financial option contracts other than for hedging purpose. The Sub-Fund will maintain the effective currency exposure to Hong Kong dollars of not less than 30% of its total NAV.

The Sub-Fund will not enter into any financial futures contracts or financial option contracts other than for hedging purpose. The Sub-Fund will maintain the effective currency exposure to Hong Kong dollar of not less than 30% of its latest available NAV.

Investment report (Unaudited) (continued)

(g) Investment objectives and policy (continued)

Allianz Choice Stable Growth Fund

The Sub-Fund aims to achieve a stable overall return over the long term by investing in a diversified portfolio of global equities and fixed-interest securities. This Sub-Fund is expected to invest 50% of its assets in equities and 50% in fixed-interest securities. The fixed income portion will consist of a range of instruments issued in countries around the world. The equity portion of the Sub-Fund will be invested primarily in the Hong Kong, Japan, North American and European markets with a smaller proportion being invested, at the discretion of the Manager, in other Asian countries and emerging markets. Such smaller proportion of the equity portion of the Sub-Fund may be invested in China A-Shares, in which the Sub-Fund may invest less than 30% of its equity portion. For the avoidance of doubt, the limit of the Sub-Fund's investment in China A-Shares is calculated based on the Sub-Fund's equity portion (instead of the Sub-Fund's NAV).

The Sub-Fund aims to achieve a stable overall return over the long term by investing in a diversified portfolio of global equities and fixed-interest securities. This Sub-Fund is expected to invest 50% of its assets in equities and 50% in fixed-interest securities. The fixed income portion will consist of a range of instruments issued in countries around the world. The equity portion of the Sub-Fund will be invested primarily in the Hong Kong, Japan, North American and European markets with a smaller proportion being invested, at the discretion of the Manager, in other Asian countries and emerging markets.

Allianz Choice Stable Growth Fund

This Sub-Fund is a fund of funds investing substantially all its assets in (i) other Sub-Funds of the Trust ("Underlying APIFs") and/or (ii) ITCIS ("Underlying ITCIS") as determined by the Manager from time to time to be appropriate to provide the desired investment exposure for this Sub-Fund based on its investment objective and policy. All Underlying APIFs are approved as APIFs by the MPFA and authorised by the SFC and all Underlying ITCIS are approved by the MPFA. In granting such approval and authorisation neither the MPFA nor the SFC makes any official recommendation or endorsement of any Underlying APIF or Underlying ITCIS (as the case may be) nor do they guarantee the commercial merits of any Underlying APIF or Underlying ITCIS or its performance. They do not mean any Underlying APIF or Underlying ITCIS is suitable for all investors nor endorse its suitability for any particular investor or class of investors.

The Sub-Fund may invest at least 40% and up to 60% of its assets in global equities (out of which less than 30% of such equity portion of the Sub-Fund may be invested in China A-Shares) and at least 40% and up to 60% of its assets in fixed-interest securities via the Underlying APIFs and/or Underlying ITCIS. The Sub-Fund will invest in 5 or more Underlying APIFs and/or Underlying ITCIS.

It is expected that the Sub-Fund will invest 70% to 100% of its NAV in the Underlying APIFs and not more than 30% of its NAV in the Underlying ITCIS.

The Underlying APIFs and the Underlying ITCIS will be actively selected and the extent of the Sub-Fund's investment in such underlying funds will be allocated by the Manager by reference to their underlying investments. In particular, the Sub-Fund may invest up to 60% of its total NAV in the Allianz Choice Global Fixed Income Fund which aims to achieve long-term capital growth and income primarily through investment in a diversified portfolio of global fixed-income securities denominated in multiple currencies. For details, please refer to the section headed "Investment Objectives and Policy" in "2. The Trust" of the Prospectus.

Allianz Choice Stable Growth Fund (continued)

Through the Underlying APIFs and the Underlying ITCIS, the Sub-Fund will:

- invest in equities which are broadly diversified (in terms of industry sectors and/or companies of a particular capital size) with a majority of which are listed and traded on stock exchange approved by MPFA; and
- invest in fixed-interest securities which carry a rating of BBB- or above (as rated by Standard & Poor's) or Baa3 or above (as rated by Moody's Investors Services Inc.) or which in the opinion of the Manager would be rated in the range of such rating and fulfil the minimum credit rating requirements set out by MPFA and broadly diversified, for example in terms of the number of issuers. Where the Underlying ITCIS in which the Sub-Fund invests tracks a bond index, such bond index will not have a significant portion of the constituent securities that do not satisfy the minimum credit rating requirements set out by MPFA.

The Sub-Fund may also hold cash for ancillary purposes. The Underlying ITCIS may engage in security lending transactions and/or repurchase agreements. They do not mean any Underlying APIF or Underlying ITCIS is suitable for all investors nor endorse its suitability for any particular investor or class of investors.

The Sub-Fund may invest at least 40% and up to 60% of its assets in global equities and at least 40% and up to 60% of its assets in fixed-interest securities via the Underlying APIFs and/or Underlying ITCIS. The Sub-Fund will invest in 5 or more Underlying APIFs and/or Underlying ITCIS.

It is expected that the Sub-Fund will invest 70% to 100% of its NAV in the Underlying APIFs and not more than 30% of its NAV in the Underlying ITCIS.

The Underlying APIFs and the Underlying ITCIS will be actively selected and the extent of the Sub-Fund's investment in such underlying funds will be allocated by the Manager by reference to their underlying investments. In particular, the Sub-Fund may invest up to 60% of its total NAV in the Allianz Choice Global Fixed Income Fund which aims to achieve long-term capital growth and income primarily through investment in a diversified portfolio of global fixed-income securities denominated in multiple currencies. For details, please refer to the section headed "Investment Objectives and Policy" in "2. The Trust" of the Prospectus.

Investment report (Unaudited) (continued)

(g) Investment objectives and policy (continued)

Allianz Choice Stable Growth Fund (continued)

Through the Underlying APIFs and the Underlying ITCIS, the Sub-Fund will:

- invest in equities which are broadly diversified (in terms of industry sectors and/or companies of a particular capital size) with a majority of which are listed and traded on stock exchange approved by MPFA; and
- invest in fixed-interest securities which carry a rating of BBB- or above (as rated by Standard & Poor's) or Baa3 or above (as rated by Moody's Investors Services Inc.) or which in the opinion of the Manager would be rated in the range of such rating and fulfil the minimum credit rating requirements set out by MPFA and broadly diversified, for example in terms of the number of issuers. Where the Underlying ITCIS in which the Sub-Fund invests tracks a bond index, such bond index will not have a significant portion of the constituent securities that do not satisfy the minimum credit rating requirements set out by MPFA.

The Sub-Fund may also hold cash for ancillary purposes. The Underlying ITCIS may engage in security lending transactions and/or repurchase agreements. The Sub-Fund and the Underlying APIFs will not enter into any financial futures contracts or financial option contracts other than for hedging purpose, although the Underlying ITCIS may enter into financial derivatives for hedging or non-hedging purpose.

Allianz Choice HK\$ Liquidity Fund

The Sub-Fund aims to provide a convenient and easily realisable medium of investment for investors who require a level of income combined with a high degree of capital protection by investing in HK dollar denominated bank deposits and other high quality HK dollar denominated fixed interest and other monetary instruments. HK\$ Liquidity Fund is designed for investment by the MPF conservative funds of MPF schemes and is a low-risk investment option which protects investors against investment losses resulting from market fluctuations or volatility.

Allianz Choice HK\$ Cash Fund

The Sub-Fund aims to provide a convenient and easily realisable medium of investment for investors who require an income stream combined with a high degree of capital protection by investing in HK dollar denominated bank deposits and other high quality HK dollar denominated fixed interest and other monetary instruments. Allianz Choice HK\$ Cash Fund is a low-risk investment option which protects investors against investment losses arising from market fluctuations or volatility. Unlike Allianz Choice HK\$ Liquidity Fund, Allianz Choice HK\$ Cash Fund will not be subject to Section 37 of Mandatory Provident Fund Schemes (General) Regulation and is open for investment by investors other than the MPF conservative funds of MPF schemes.

Allianz Choice RMB Money Market Fund

The Sub-Fund aims to provide a convenient and realisable medium of investment and seek income and capital gains over the long run by investing at least 70% of its assets in RMB denominated certificates of deposit and bank deposits and the Sub-Fund can invest up to 30% of its assets in high quality RMB denominated fixed interest securities (e.g. bond or notes) whose credit rating meet the minimum requirement set by the Mandatory Provident Fund Schemes Authority ("the Authority") (currently rated as Baa3 or above by Moody's Investor Services Inc. or BBB- or above by Standard & Poor's Corporation or similar rating by the other recognised rating agencies approved by the Authority). The Sub-Fund can also invest up to 10% of its assets in fixed interest securities, bank deposits and other monetary instruments such as short term bills, commercial paper and treasury bills in non-RMB denominated currencies such as Hong Kong dollar and US dollar.

This Sub-Fund invests (i) at least 90% of its assets in investments denominated and settled in RMB, issued in Hong Kong or outside the People's Republic of China, (ii) up to 10% of its assets in investments denominated and settled in currencies other than RMB for various purposes including but not limited to diversification, market liquidity and fund liquidity purposes.

The Sub-Fund must maintain a portfolio with weighted average maturity not exceeding 60 days and a weighted average life not exceeding 120 days and must not purchase instruments with a remaining maturity of more than 397 days, or two years in the case of government and other public securities.

The Sub-Fund will not invest in any securities issued within the People's Republic of China through the Qualified Foreign Institutional Investor ("QFII") program. The Sub-Fund will not enter into any financial futures contracts or financial option contracts other than for hedging purpose. Currently the Sub-Fund has no intention to enter into any securities lending or repurchase agreement.

The Sub-Fund will not invest in securities issued by or guaranteed by any single country (including its government, a public or local authority of that country) with a credit rating below investment grade.

Allianz Choice "Best Styles" Europe Fund

The Sub-Fund aims to achieve long-term capital growth by investing primarily in equity markets of Europe.

The Sub-Fund will invest:

- at least 70% of its assets in equities of companies that are incorporated in European countries or that derive a predominant portion of their revenue and/or profits from European countries which may include but are not limited to UK, France, Switzerland, Germany;
- whilst up to 30% of its assets may be invested in other securities which may include for example, equities and equity-related securities (e.g. ADR, GDR) other than those mentioned above, cash and/or money market instruments.

The equities invested by the Sub-Fund are broadly diversified (in terms of industry sectors and/or companies of a particular capital size). The Sub-Fund targets to invest in equities that are listed and traded on stock exchange approved by MPFA.

The Sub-Fund currently does not intend to engage in stock lending transactions and/or repurchase agreements and the Sub-Fund will not engage in reverse-repurchase agreements. The Sub-Fund will not enter into any financial futures contracts or financial option contracts other than for hedging purpose. The Sub-Fund will not seek to maintain a minimum level of 30% currency exposure to HK dollars.

Investment report (Unaudited) (continued)

(g) Investment objectives and policy (continued)

Allianz Choice "Best Styles" Europe Fund (continued)

The term "Best Styles" used in the name of the Sub-Fund refers to the description of the Manager's investment strategy whereby the selection of securities is based on a combination of fundamental analysis and quantitative risk management and securities are analyzed and selected in accordance with a diversified blend of five different investment style orientations. Each investment style is formulated by a combination of various bottom-up stock selection parameters. For the avoidance of doubt, the term "Best Styles" is the brand name for this proprietary investment strategy. Accordingly, "Best Styles" is a brand name only and it is not indicative of the Sub-Fund's performance or returns.

Allianz Choice "Best Styles" US Fund

The Sub-Fund aims to achieve long-term capital growth by investing primarily in equity markets of United States.

The Sub-Fund will invest:

- at least 70% of its assets in equities of companies that are incorporated in the United States or that derive a predominant portion of their revenue and/or profits from the United States;
- whilst up to 30% of its assets may be invested in other securities which may include for example, equities and equity-related securities (e.g. ADR, GDR) other than those mentioned above, cash and/or money market instruments.

The equities invested by the Sub-Fund are broadly diversified (in terms of industry sectors and/or companies of a particular capital size). The Sub-Fund targets to invest in equities that are listed and traded on stock exchange approved by MPFA.

The Sub-Fund currently does not intend to engage in stock lending transactions and/or repurchase agreements and the Sub-Fund will not engage in reverse-repurchase agreements. The Sub-Fund will not enter into any financial futures contracts or financial option contracts other than for hedging purpose. The Sub-Fund will not seek to maintain a minimum level of 30% currency exposure to HK dollars.

The term "Best Styles" used in the name of the Sub-Fund refers to the description of the Manager's investment strategy whereby the selection of securities is based on a combination of fundamental analysis and quantitative risk management and securities are analyzed and selected in accordance with a diversified blend of five different investment style orientations. Each investment style is formulated by a combination of various bottom-up stock selection parameters. For the avoidance of doubt, the term "Best Styles" is the brand name for this proprietary investment strategy. Accordingly, "Best Styles" is a brand name only and it is not indicative of the Sub-Fund's performance or returns.

Allianz Choice Global Fixed Income Fund

The Sub-Fund aims to achieve long-term capital growth and income primarily through investment in a diversified portfolio of global fixed-income securities denominated in multiple currencies.

Allianz Choice Global Fixed Income Fund (continued)

The Sub-Fund will invest:

- at least 70% of its assets in global fixed-income securities of investment grade with a rating of BBB- or above (as rated by Standard & Poor's) or Baa3 or above (as rated by Moody's Investors Services Inc.) or which in the opinion of the Manager would be rated in the range of such rating;
- whilst up to 30% of the Sub-Fund's assets may be invested in other securities which may include for example, cash and money market instruments.

The Sub-Fund may invest less than 30% of its assets in instruments with loss-absorption features (including contingent convertible bonds, senior non-preferred debt securities, instruments issued under the resolution regime for financial institutions and other capital instruments issued by banks or other financial institutions).

The range of global fixed income securities invested by the Sub-Fund must meet the minimum credit rating requirement of the MPFA and are broadly diversified which may include for example, interest bearing securities (in various currencies) issued by governments, institutions and corporations in developed and emerging markets.

The Sub-Fund currently does not intend to engage in repurchase agreements and the Sub-Fund will not engage in reverse-repurchase agreements. The Sub-Fund will not enter into any financial futures contracts or financial option contracts other than for hedging purpose.

Allianz Choice Japan Fund

The Sub-Fund aims to achieve capital appreciation in the long-term by investing primarily in the equity markets of Japan.

The Sub-Fund will invest:

- At least 70% of its assets in equities of companies which are incorporated in Japan or that derive a predominant portion of their revenue and/or profits from Japan
- whilst up to 30% of its assets may be invested in other securities which may include for example, equities and equity-related securities (e.g. ADR, GDR) other than those mentioned above, cash and/or money market instruments.

The equities invested by the Sub-Fund are broadly diversified (in terms of industry sectors and/or companies of a particular capital size). The Sub-Fund targets to invest in equities that are listed and traded on stock exchange approved by MPFA.

The Sub-Fund currently does not intend to engage in stock lending transactions and/or repurchase agreements and the Sub-Fund will not engage in reverse-repurchase agreements. The Sub-Fund will not enter into any financial futures contracts or financial option contracts other than for hedging purpose. The Sub-Fund will not seek to maintain a minimum level of 30% currency exposure to HK dollars.

(h) Commentary by the Trustee

The Trustee of Allianz Global Investors Choice Fund (the "Trust") confirmed that based on the information received from the Manager of the Trust during the year, to the best of the knowledge and belief of the Trustee, the investment objectives and policies for the Trust were complied with.

Trustee's report

Allianz Global Investors Choice Fund

We hereby confirm that:

- (1) In our opinion, the Manager of the Allianz Choice Flexi Balanced Fund, Allianz Choice Asian Fund, Allianz Choice Balanced Fund, Allianz Choice Capital Stable Fund, Allianz Choice China A-Shares Fund, Allianz Choice Greater China Fund, Allianz Choice Global Equity Fund, Allianz Choice Growth Fund, Allianz Choice Hong Kong Fund, Allianz Choice Oriental Fund, Allianz Choice Stable Growth Fund, Allianz Choice HK\$ Liquidity Fund, Allianz Choice HK\$ Cash Fund, Allianz Choice RMB Money Market Fund, Allianz Choice "Best Styles" Europe Fund, Allianz Choice "Best Styles" US Fund, Allianz Choice Global Fixed Income Fund and Allianz Choice Japan Fund (each a separate sub-fund of Allianz Global Investors Choice Fund and referred to as the "Sub-Funds") has in all material respects managed the Sub-Funds in accordance with the provisions of the Consolidated Trust Deed dated 14 March 2008, as amended, during the year ended 30 September 2024;
- (2) We have not become aware of any failures by the Custodian, the Manager or their delegates to comply with the obligations imposed on them with respect to the Sub-Funds during the year ended 30 September 2024, except to the extent that such failures have been previously reported to the Hong Kong Mandatory Provident Fund Schemes Authority (the "Authority");
- (3) We are not aware of any events of a significant nature relating to the Sub-Funds that occurred during the year ended 30 September 2024 which have not been reported to the Authority;
- (4) The relevant provisions of the constitutive documents, the Code on Unit Trusts and Mutual Funds issued by the Securities and Futures Commission of Hong Kong, the Mandatory Provident Fund Schemes Ordinance, the Mandatory Provident Fund Schemes (General) Regulation, the Code on MPF Investment Funds, and other relevant guidelines issued by the Authority have been complied with in all material respects of the Sub-Funds during the year ended 30 September 2024, except to the extent that any non-compliance has been previously reported to the Authority;
- (5) There are no material changes (including changes of custodians, investment managers and delegates of investment managers) which have not been reported to the Authority during the year ended 30 September 2024; and
- (6) We have supervised, and exercised proper control over all service providers appointed or engaged for the purpose of the Sub-Funds during the year ended 30 September 2024.

Independent Auditor's Report

To the Trustee of the Sub-Funds as defined in the Opinion section of this report

Report on the Audit of the Financial Statements

Opinion

What we have audited

The financial statements of Allianz Choice Flexi Balanced Fund, Allianz Choice Asian Fund, Allianz Choice Balanced Fund, Allianz Choice Capital Stable Fund, Allianz Choice China A-Shares Fund, Allianz Choice Greater China Fund, Allianz Choice Global Equity Fund, Allianz Choice Growth Fund, Allianz Choice Hong Kong Fund, Allianz Choice Oriental Fund, Allianz Choice Stable Growth Fund, Allianz Choice HK\$ Liquidity Fund, Allianz Choice HK\$ Cash Fund, Allianz Choice RMB Money Market Fund, Allianz Choice "Best Styles" Europe Fund, Allianz Choice "Best Styles" US Fund, Allianz Choice Global Fixed Income Fund and Allianz Choice Japan Fund (each a separate sub-fund of Allianz Global Investors Choice Fund and referred to as the "Sub-Funds"), which are set out on pages 151 to 283, comprise:

- the statement of net assets as at 30 September 2024;
- the statement of comprehensive income for the year then ended;
- the statement of changes in net assets attributable to unitholders for the year then ended;
- the cash flow statement for the year then ended; and
- the notes to the financial statements, comprising material accounting policy information and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of each of the Sub-Funds as at 30 September 2024, and of each of their financial transactions and each of their cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAAs") and with reference to Practice Note 860.1 (Revised), "The Audit of Retirement Schemes" issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Sub-Funds in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Independent Auditor's Report

To the Trustee of the Sub-Funds as defined in the Opinion section of this report (continued)

Other Information

The Trustee and the Manager (the "Management") of the Sub-Funds are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Management of the Sub-Funds is responsible for the preparation of financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Sub-Funds is responsible for assessing the Sub-Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Sub-Funds or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Sub-Funds is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Consolidated Trust Deed dated 14 March 2008, as amended (the "Trust Deed"), the Hong Kong Mandatory Provident Fund Schemes Ordinance (the "Ordinance"), the Hong Kong Mandatory Provident Fund Schemes (General) Regulation (the "General Regulation"), the Code on MPF Investment Funds (the "MPF Code"), Guidelines II.5 issued by the Mandatory Provident Fund Schemes Authority (the "MPF Guideline") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Independent Auditor's Report

To the Trustee of the Sub-Funds as defined in the Opinion section of this report (continued)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Sub-Funds have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed, the Ordinance, the General Regulation, the MPF Code, the MPF Guideline and Appendix E of the SFC Code.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Funds' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent Auditor's Report

To the Trustee of the Sub-Funds as defined in the Opinion section of this report (continued)

Report on Matters under the Relevant Disclosure Provisions of the Trust Deed, the Ordinance, the General Regulation, the MPF Code, the MPF Guideline and Appendix E of the SFC Code

- (a) In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed, the Ordinance, the General Regulation, the MPF Code, the MPF Guideline and Appendix E of the SFC Code; and
- (b) We have obtained all the information and explanations which, to the best of our knowledge and belief, are necessary for the purpose of our audit.

The accompanying notes form an integral part of these financial statements.

Notes to the financial statements

1 The Trust

Allianz Global Investors Choice Fund (the "Trust") is an open-ended umbrella unit trust established under the laws of Hong Kong pursuant to a trust deed dated 30 December 1998. The Trustee and the Manager replaced the trust deed by consolidating the terms of the trust deed with the terms of the deeds supplemental to the consolidated trust deed dated 14 March 2008, as amended (the "Trust Deed"). The Trust started operations on 15 January 1999.

The purpose of the Trust is to achieve long term appreciation by investing the monies of its members. As at 30 September 2024 and 2023, there were eighteen sub-funds respectively (collectively the "Sub-Funds" of the Trust) created under the Trust.

The names of the Sub-Funds are as follows:

Allianz Choice Flexi Balanced Fund
Allianz Choice Asian Fund
Allianz Choice Balanced Fund
Allianz Choice Capital Stable Fund
Allianz Choice China A-Shares Fund
Allianz Choice Greater China Fund
Allianz Choice Global Equity Fund
Allianz Choice Growth Fund
Allianz Choice Hong Kong Fund
Allianz Choice Oriental Fund
Allianz Choice Stable Growth Fund
Allianz Choice HK\$ Liquidity Fund
Allianz Choice HK\$ Cash Fund
Allianz Choice RMB Money Market Fund
Allianz Choice "Best Styles" Europe Fund
Allianz Choice "Best Styles" US Fund
Allianz Choice Global Fixed Income Fund
Allianz Choice Japan Fund

The investment objectives and policies of Allianz Choice Balanced Fund, Allianz Choice Capital Stable Fund, Allianz Choice Growth Fund and Allianz Choice Stable Growth Fund were amended, such that the above mentioned Sub-Funds invest substantially in other Sub-Funds of the Trust ("Underlying APIFs") and/or ITCIS ("Underlying ITCIS"). It is expected that the above mentioned Sub-Funds will invest 70% to 100% of its NAV in the Underlying APIFs and not more than 30% of its NAV in the Underlying ITCIS.

The Allianz Choice HK\$ Liquidity Fund is an approved MPF Conservative Fund for the purposes of the Mandatory Provident Fund Schemes (General) Regulation (the "General Regulation").

All Sub-Funds are authorised by the Hong Kong Securities and Futures Commission ("SFC") under Section 104 of the Securities and Futures Ordinance ("HKSF") and are approved as approved pooled investment funds ("APIFs") by the Mandatory Provident Fund Schemes Authority (the "Authority") under Section 6 of the General Regulation.

In giving such approval and authorisation, neither the SFC nor the Authority makes any official recommendation of the Sub-Funds, nor do they take any responsibility for the financial soundness of the Sub-Funds or for the correctness of any statements made or opinions expressed in this regard.

Notes to the financial statements (continued)

2 Summary of material accounting policies

The material accounting policies applied in the preparation of the financial statements of the Sub-Funds are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) *Basis of preparation*

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and liabilities (including derivative financial instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the Trustee and the Manager (the “Management”) to exercise their judgement in the process of applying the Sub-Funds’ accounting policies. The areas involving higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3.

The amounts disclosed in the financial statements and notes have been rounded off to the nearest thousand of the Sub-Funds’ respective presentation currencies (note 2(i)(i)) unless otherwise stated.

Standards and amendments to existing standards effective 1 October 2023

The Sub-Funds has applied the following standards and amendments for the first time for their annual reporting period commencing 1 October 2023:

- Definition of Accounting Estimates – amendments to HKAS 8
- Disclosure of Accounting Policies – Amendments to HKAS 1 and HKFRS Practice Statement 2

There are no material impact on the financial statement of the Sub-Fund.

New standards, amendments and interpretations effective after 1 October 2023 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2023, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Funds.

2 Summary of material accounting policies (continued)

(b) *Financial assets and financial liabilities at fair value through profit or loss*

(i) **Classification**

The Sub-Funds classify their investments based on both the Sub-Funds' business models for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolios of financial assets are managed and performances are evaluated on a fair value basis. The Sub-Funds are primarily focused on fair value information and use that information to assess the assets' performance and to make decisions. The Sub-Funds have not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Sub-Funds' debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Sub-Funds' business models' objectives. Consequently, all investments are measured at fair value through profit or loss.

All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative.

As such, the Sub-Funds classify all of their investment portfolios as financial assets or liabilities as fair value through profit or loss.

The Sub-Funds' policies require the Management to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

(ii) **Recognition, derecognition and measurement**

Regular purchases and sales of investments are recognised on the trade date – the date on which the Sub-Funds commit to purchase or sell the investments. Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the statement of comprehensive income.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Sub-Funds have transferred substantially all risks and rewards of ownership.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the "financial assets or financial liabilities at fair value through profit or loss" category are presented in the statement of comprehensive income within "net gains/(losses) on financial assets and liabilities at fair value through profit or loss" in the period in which they arise.

The Sub-Funds use the weighted average cost method to determine realised gains and losses on derecognition.

Notes to the financial statements (continued)

2 Summary of material accounting policies (continued)

(b) *Financial assets and financial liabilities at fair value through profit or loss (continued)*

(iii) Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. The Sub-Funds utilise the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, Management will determine the point within the bid-ask spread that is more representative of fair value.

Securities which are not listed on an exchange or are thinly traded are valued by using quotes from brokers.

In the absence of quoted values or brokers' representative prices, securities are valued using appropriate valuation techniques as reasonably determined by the Management. Debt securities are fair valued inclusive of accrued interest. Investment funds are fair valued based on their latest net asset value per unit as determined by the administrator of such investment funds.

The valuation point of the Sub-Funds is at 5:00 pm Hong Kong Time on each valuation day. Due to certain markets closing before the valuation point, certain financial assets are valued based on their last traded price with fair value adjustment factors provided by an independent price vendor to adjust the price by an expected market shift. Fair value of those financial assets is determined using observable market data and such financial assets are classified as Level 2.

(iv) Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the end of the reporting year.

(c) *Offsetting financial instruments*

Financial assets and liabilities are offset and the net amount reported in the statement of net assets where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise an asset and settle a liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Sub-Funds or the counterparty.

(d) *Income*

Interest income is recognised on a time proportionate basis, using the effective interest method. Interest on bank deposits is disclosed separately in the statement of comprehensive income. Interest income on debt securities is included in "net gains/(losses) on financial assets and liabilities at fair value through profit or loss".

Dividend income is recognised when the right to receive payment is established, with the corresponding foreign withholding taxes recorded as an expense.

Other income is accounted for on an accrual basis.

2 Summary of material accounting policies (continued)

(e) *Expenses*

Expenses are accounted for on an accrual basis.

(f) *Transaction costs*

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers, levies by regulatory agencies and security exchanges, and transfer taxes and duties. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as an expense.

(g) *Subscriptions and redemptions*

The Sub-Funds recognise unitholders' subscriptions and allot units upon receipt of a valid subscription application and derecognise them upon receipt of a valid redemption application.

(h) *Units in issue*

Each of the Sub-Funds issue redeemable units, which are redeemable at the holder's option, represent puttable financial instruments of the Sub-Funds. The puttable financial instruments are classified as equity if they meet all the following criteria:

- the puttable instruments entitle the holder to a pro-rata share of net assets;
- the puttable instruments are the most subordinated unit in issue and unit features are identical;
- there are no contractual obligations to deliver cash or another financial asset; and
- the total expected cash flows from the puttable instrument over its life are based substantially on the profit or loss of the Sub-Funds.

Each of the Sub-Funds issue more than one class of redeemable units and do not have identical rights. Therefore, they do not meet the criteria for equity classification and are classified as financial liabilities. They are measured at the redemption amount that is payable at the year end date if the holder exercises the right to put the units back to the Sub-Funds.

(i) *Functional currency translation*

(i) **Functional and presentation currency**

The financial statements of the Sub-Funds, except for Allianz Choice RMB Money Market Fund, Allianz Choice "Best Styles" Europe Fund, Allianz Choice "Best Styles" US Fund, Allianz Choice Global Fixed Income Fund and Allianz Choice Japan Fund, are presented in Hong Kong Dollars ("HKD") which is their functional and presentation currency.

The financial statements of Allianz Choice RMB Money Market Fund are presented in Renminbi ("RMB"), Allianz Choice "Best Styles" Europe Fund are presented in Euro ("EUR"), Allianz Choice "Best Styles" US Fund and Allianz Choice Global Fixed Income Fund are presented in United States Dollars ("USD") and Allianz Choice Japan Fund are presented in Japanese Yen ("JPY"), which are their respective functional and presentation currencies.

Notes to the financial statements (continued)

2 Summary of material accounting policies (continued)

(i) *Functional currency translation (continued)*

(i) **Functional and presentation currency (continued)**

The Management considers each of the Sub-Funds' functional currencies noted above to be the currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. This is also the currency in which the Sub-Funds measure their performance and report their results.

(ii) **Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the year end date.

Foreign exchange gains and losses arising from translation are included in the statement of comprehensive income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the statement of comprehensive income within "net foreign exchange gains/(losses)".

Foreign exchange gains and losses relating to financial assets and liabilities carried at fair value through profit or loss are presented in the statement of comprehensive income within "net gains/(losses) on financial assets and liabilities at fair value through profit or loss".

(j) *Amounts due from or due to brokers*

Amounts due from and to brokers represent receivables for investments sold and payables for investments purchased that have been contracted for but not yet settled or delivered on the statement of net assets date respectively.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Sub-Funds shall measure the loss allowance on amounts due from brokers at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Sub-Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by Management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

(k) *Cash and cash equivalents*

Cash and cash equivalents include cash at bank, bank deposits with original maturities of 3 months or less from the date of placement net of bank overdrafts, if any.

2 Summary of material accounting policies (continued)

(l) *Formation costs*

Allianz Choice China A-Shares Fund and Allianz Choice Global Equity Fund incurred costs and expenses relating to the formation of the sub-fund. Formation costs are recognized as expenses in the period in which they are incurred and are presented in the statement of comprehensive income within "formation costs".

(m) *Structured entities*

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes; (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The Sub-Funds consider all of their investments in other investment funds to be investments in unconsolidated structured entities.

The change in fair value of each underlying fund is included in the statement of comprehensive income in "net gains/(losses) on financial assets and liabilities at fair value through profit or loss".

(n) *Comparative figures*

Certain comparative figures have been reclassified to conform with current year's presentation.

3 Critical accounting estimates and judgements

The Manager makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below.

Fair value of securities not quoted in an active market

The Sub-Fund holds a number of investment funds, debt securities and derivatives that are valued by reference to the net asset values as provided by fund administrators, broker quotes, etc. In determining the fair value of such investments, the Manager exercises judgements and estimates on the net asset values as provided by fund administrators, the sources of brokers and the quantity and quality of quotes used. Such net asset value per unit and quotes may be indicative and not executable or legally binding. As such, the net asset value per unit and broker quotes do not necessarily indicate the price at which the investment funds, debt securities and derivatives could actually be traded as of the period end date. Although best estimate is used in estimating fair values, there are inherent limitations in any valuation technique. Estimated fair values may differ from the values that would have been used if a readily available market existed. Actual transacted prices may differ from the quotes provided by the brokers. The Manager considers that in the absence of any other reliable market sources, the broker quotes available to them reflect the best estimate of fair value.

Notes to the financial statements (continued)

4 Classes of units

The Sub-Funds of the Trust have different classes of units which are issued according to the following criteria as stated in the Trust Deed.

For all Sub-Funds except for Allianz Choice Hong Kong Fund, Allianz Choice HK\$ Liquidity Fund, Allianz Choice HK\$ Cash Fund, Allianz Choice RMB Money Market Fund, Allianz Choice “Best Styles” Europe Fund, Allianz Choice “Best Styles” US Fund, Allianz Choice Global Fixed Income Fund and Allianz Choice Japan Fund:

- | | |
|---|--|
| (a) Ordinary Class A:
(Denominated in HKD) | For retirement and provident funds – as agreed between the Manager and the Trustee of such schemes

For other investors – each investor has a total investment of over HKD50 million in the Trust |
| (b) Ordinary Class B:
(Denominated in HKD) | For retirement and provident funds – as agreed between the Manager and the Trustee of such schemes

For other investors – each investor has a total investment of between HKD20 million and HKD50 million in the Trust |
| (c) Ordinary Class C:
(Denominated in HKD) | For retirement and provident funds – as agreed between the Manager and the Trustee of such schemes

For other investors – each investor has a total investment of below HKD20 million in the Trust |
| (d) Ordinary Class F:
(Denominated in HKD) | For funds or portfolios which are either managed or advised by the Manager or as agreed by the Manager |
| (e) Ordinary Class I:
(Denominated in HKD) | For funds or portfolios which are either managed or advised by the Manager or as agreed by the Manager |
| (f) Administration Class A & B:
(Denominated in HKD) | For MPF-Exempt Occupational Retirement Schemes Ordinance (“ORSO”) schemes – as agreed between the Manager and the Trustee of such schemes |

4 Classes of units (continued)

For Allianz Choice Hong Kong Fund:

- | | |
|---|--|
| (a) Ordinary Class A:
(Denominated in HKD) | For retirement and provident funds – as agreed between the Manager and the Trustee of such schemes

For other investors – each investor has a total investment of over HKD50 million in the Trust |
| (b) Ordinary Class B:
(Denominated in HKD) | For retirement and provident funds – as agreed between the Manager and the Trustee of such schemes

For other investors – each investor has a total investment of between HKD20 million and HKD50 million in the Trust |
| (c) Ordinary Class C:
(Denominated in HKD) | For retirement and provident funds – as agreed between the Manager and the Trustee of such schemes

For other investors – each investor has a total investment of below HKD20 million in the Trust |
| (d) Ordinary Class C:
(Denominated in RMB) | For all investors other than retirement and provident funds – if the Sub-Fund has not been Mainland-Hong Kong Mutual Recognition of Funds (“MRF”) Approved

For Mainland investors – if the Sub-Fund has been MRF Approved |
| (e) Ordinary Class F:
(Denominated in HKD) | For funds or portfolios which are either managed or advised by the Manager or as agreed by the Manager |
| (f) Ordinary Class I:
(Denominated in HKD) | For funds or portfolios which are either managed or advised by the Manager or as agreed by the Manager |
| (g) Administration Class A & B:
(Denominated in HKD) | For MPF-Exempt ORSO schemes – as agreed between the Manager and the Trustee of such schemes |

Notes to the financial statements (continued)

4 Classes of units (continued)

For Allianz Choice HK\$ Liquidity Fund:

- | | |
|---|---|
| (a) Ordinary Class:
(Denominated in HKD) | For MPF Conservative Funds of MPF schemes and, if agreed by the Manager, other retirement and provident funds |
| (b) Ordinary Class F:
(Denominated in HKD) | For funds or portfolios which are either managed or advised by the Manager or as agreed by the Manager |
| (c) Ordinary Class I:
(Denominated in HKD) | For funds or portfolios which are either managed or advised by the Manager or as agreed by the Manager |
| (d) Administration Class:
(Denominated in HKD) | For MPF-Exempt ORSO schemes – as agreed between the Manager and the Trustee of such schemes |

For Allianz Choice HK\$ Cash Fund:

- | | |
|---|--|
| (a) Ordinary Class:
(Denominated in HKD) | For all investors other than MPF Conservative Funds of MPF Schemes |
| (b) Ordinary Class F:
(Denominated in HKD) | For funds or portfolios which are either managed or advised by the Manager or as agreed by the Manager |
| (c) Ordinary Class I:
(Denominated in HKD) | For funds or portfolios which are either managed or advised by the Manager or as agreed by the Manager |
| (d) Administration Class:
(Denominated in HKD) | For MPF-Exempt ORSO schemes – as agreed between the Manager and the Trustee of such schemes |

For Allianz Choice RMB Money Market Fund:

- | | |

7 Taxation

Taxation for the year represents overseas withholding tax on dividend, interest income and capital gains tax imposed in the country of origin. Such income is recorded gross of taxes in the statement of comprehensive income. No provision for Hong Kong Profits Tax has been made in the financial statements as the Sub-Funds are authorised as collective investment schemes under section 104 of the HKSF0 and are therefore exempt from profits tax under section 26A(1A) of the Hong Kong Inland Revenue Ordinance.

Taxation in the statement of comprehensive income represents:

8 Financial risk management

The Sub-Funds maintain an investment portfolio in a variety of listed or quoted financial instruments as dictated by their investment management strategies. The Sub-Funds' investment portfolios mainly comprise equities, bonds, floating rate notes, certificates of deposits, investments funds, futures contracts and forward contracts.

The investing activities of the Sub-Funds expose them to various types of risks that are associated with the financial instruments and markets in which they invest. The Management has set out below the most important types of financial risks inherent in each type of financial instruments. The Management would like to highlight that the following list of associated risks only sets out some of the risks but does not purport to constitute an exhaustive list of all the risks inherent in an investment in the Sub-Funds.

The nature and extent of the financial instruments outstanding at the date of the statement of net assets and the risk management policies employed by the Sub-Funds are discussed below.

(a) Market price risk

Market price risk is the risk that the value of the Sub-Funds' investment portfolio will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

The Sub-Funds are exposed to price risk arising from changes in market prices. Price risk is managed by investing in a portfolio of different investments in accordance with the investment objectives of the Sub-Funds.

The Sub-Funds are also subject to the risk of concentration of investments in issuers located in a particular country or region which may be susceptible to adverse securities markets, exchange rates and social, political, regulatory or economic events which may occur in that country or region.

8 Financial risk management (continued)

(a) Market price risk (continued)

* The Sub-Fund invested in investment funds only and therefore, there was no direct exposure on equities investments.

Except for Allianz Choice HK\$ Liquidity Fund, Allianz Choice HK\$ Cash Fund, Allianz Choice RMB Money Market Fund and Allianz Choice Global Fixed Income Fund, which are invested into debt or related investment products, all other Sub-Funds are exposed to price risk as changes in market prices of their investments will affect the valuation of the Sub-Funds. Price risk can be mitigated by constructing a diversified portfolio of investments across different issuers, different sectors, or traded on different markets.

The impact of the movement of the relevant benchmarks as at 30 September 2024 and 2023, with all other variables held constant, is shown below. An equal change in the opposite direction would have reduced the net assets attributable to unitholders by an equal but opposite amount.

Notes to the financial statements (continued)

As at 30 September 2024 and 2023, Allianz Choice Flexi Balanced Fund, Allianz Choice HK\$ Liquidity Fund, Allianz Choice HK\$ Cash Fund, Allianz Choice RMB Money Market Fund and Allianz Choice Global Fixed Income Fund invested in bonds, floating rate notes and certificates of deposits. The Manager considers that the price of these instruments is more sensitive to fluctuation in interest rates and credit ratings which are set out in notes 8(c) and 8(e), respectively.

Notes to the financial statements (continued)

8 Financial risk management (continued)

(b) Currency risk

The Sub-Funds invest in financial instruments and enter into transactions denominated in currencies other than their functional currencies. Consequently, the Sub-Funds are exposed to risk that the exchange rates of their functional currencies relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Sub-Funds' assets or liabilities denominated in other currencies. The fluctuations in the rate of exchange between the currency in which the asset or liability is denominated and the functional currency could result in an appreciation or depreciation in the fair value of that asset or liability. The Manager may mitigate this risk by using financial derivative instruments. The Manager monitors the Sub-Fund's currency exposures on an ongoing basis.

The Sub-Funds' concentration of currency risk at the year ends is set out as follows:

As at 30 September 2024

	Monetary and non-monetary exposure to currency risk

Notes to the financial statements (continued)

8 Financial risk management (continued)

(c) Interest rate risk

Interest rate risk arises from changes in interest rates which may affect the value of fixed income securities and interest income from term deposits and therefore result in potential gain or loss to the Sub-Funds. The Sub-Funds are exposed to risk associated with the effects of fluctuations in the prevailing levels of market interest rates on their cash and cash equivalents; however, this is relatively immaterial to the size of the Sub-Funds' net assets. The Sub-Funds' interest rate risk is managed on an ongoing basis by the Manager.

The following table details the exposure of the Sub-Funds to interest rate risk. It includes the Sub-Funds' interest-bearing assets and liabilities, categorised by the earlier of contractual re-pricing or maturity date measured by the carrying value of the assets and liabilities.

Interest rate risk arises from changes in interest rates which may affect the value of fixed income securities and interest income from term deposits held by Sub-Funds. If interest rates at the year end dates had changed by 100 (2023: 140) basis points with all other variables held constant, it is estimated that the net assets attributable to unitholders would have changed accordingly as follows:

(d) Liquidity risk

Liquidity risk is the risk that the Sub-Funds will encounter difficulty in meeting obligations associated with financial liabilities.

The Sub-Funds' constitution provides for the daily creation and cancellation of units and they are therefore exposed to the liquidity risk of meeting unitholder redemptions at any time. The Sub-Funds' listed investments are considered to be readily realisable under normal market conditions. The Sub-Funds, however, also invest in quoted fixed income securities which may not be publicly traded on exchanges and may be illiquid.

The Manager's policy is to regularly monitor current and expected liquidity requirements to ensure that they maintain sufficient reserves of cash and readily realisable marketable securities to meet their liquidity requirements in the short and long term.

As at 30 September 2024 and 2023, the Sub-Fund manages its liquidity risk by investing in investments that it expects to be able to liquidate within one month or less.

As at 30 September 2024 and 2023, all financial liabilities disclosed in the statement of net assets mature within six months from the date of the statement of net assets.

Redeemable units are redeemed on demand at the holder's option. However, the Manager does not envisage that the contractual maturity will be representative of the actual cash outflows, as holders of these instruments typically retain them for the medium to long term.

At 30 September 2024 and 2023, no individual investor held more than 10% of the respective Sub-Funds' redeemable units.

Notes to the financial statements (continued)

8 Financial risk management (continued)

(e) Credit risk

The Sub-Funds are exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The main concentration to which the Sub-Funds are exposed arises from the Sub-Funds' investments in debt securities. The Sub-Funds are also exposed to counterparty credit risk on trading derivative products, cash and cash equivalents, amounts receivable on subscription, amounts due from brokers, dividends and other receivables and term deposits with original maturity of more than three months.

As at 30 September 2024 and 2023, Allianz Choice Asian Fund, Allianz Choice Balanced Fund, Allianz Choice Capital Stable Fund, Allianz Choice China A-Shares Fund, Allianz Choice Greater China Fund, Allianz Choice Global Equity Fund, Allianz Choice Growth Fund, Allianz Choice Hong Kong Fund, Allianz Choice Oriental Fund, Allianz Choice Stable Growth Fund, Allianz Choice "Best Styles" Europe Fund, Allianz Choice "Best Styles" US Fund and Allianz Choice Japan Fund did not have credit risk exposure arising from fixed income instruments as they invest in equities and investments funds only.

Credit risk arising from investments in fixed income instruments is managed by reviewing and monitoring the credit quality and publicly available information of fixed income instruments or the relevant issuers on an ongoing basis. In addition, Allianz Global Investors Pricing Review Committee reviews fixed income instruments with significant drop in prices or stale prices to identify potential credit risk issues and adopt appropriate actions.

As at the year end date, the credit ratings of the fixed income instruments or the relevant issuers as determined by Moody's are shown in the following table:

* The relevant issuers of the fixed income investments have credit ratings of A- or above as determined by Standard and Poor's.

Credit risk arising from derivatives transactions with counterparties relates to transactions awaiting settlement. This credit risk is managed by monitoring the credit quality of the derivative instruments held by the Sub-Funds and the financial position of the derivative instrument counterparties.

Notes to the financial statements (continued)

8 Financial risk management (continued)

(e) Credit risk (continued)

Credit risk arising from investment transactions with brokers relates to transactions awaiting settlement. Risk relating to unsettled transactions is considered low due to the short settlement period involved and the high credit quality of the brokers used.

All of the cash held by the Sub-Funds is deposited with Agricultural Bank of China Limited, Australia and New Zealand Banking Group Limited, Bank of Communications Company Limited, Bank of China (Hong Kong) Limited, Bank of East Asia Limited, Bank of Tokyo Mitsubishi UFJ Limited, China Construction Bank (Asia) Corporation Limited, Chong Hing Bank Limited, Dah Sing Bank Limited, Fubon Bank (Hong Kong) Limited, Goldman Sachs Futures Ltd., Industrial and Commercial Bank of China (Asia) Limited, National Australia Bank Limited, Oversea-Chinese Banking Corporation Limited, Public Bank (Hong Kong) Limited, Qatar National Bank (Hong Kong) Limited, Shanghai Commercial Bank Limited, Standard Chartered Bank (Hong Kong) Limited, The Hongkong and Shanghai Banking Corporation Limited, United Overseas Bank Limited, OCBC Wing Hang Bank Limited, and Wing Lung Bank Limited (the "Banks"). Bankruptcy or insolvency of the Banks may cause the Sub-Funds' rights with respect to the cash held by the Banks to be delayed or limited. The Banks have credit ratings of A (2023: Baa2) or above by Moody's. The Manager mitigates the risk by monitoring the credit ratings and publicly available information of the Banks on a regular basis.

The Sub-Funds measure credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. At 30 September 2024 and 2023, all cash and cash equivalents, amounts receivable on subscription, amounts due from brokers, dividends and other receivables and term deposits with original maturity of more than three months are held with counterparties with a credit rating of Baa2 or higher as assigned by Moody's and are due to be settled within 6 month. Applying the requirements of HKFRS 9, the expected credit loss is immaterial for the Sub-Fund, and, as such, no expected credit loss has been recognised within the financial statements

The maximum exposure to credit risk at year end is the carrying amount of the financial assets as shown on the statement of net assets. As at 30 September 2024 and 2023, there were no significant concentrations of credit risk to counterparties.

8 Financial risk management (continued)

(f) Fair value information

The fair value of financial assets and liabilities traded in active markets are based on quoted market prices at the close of trading on the year end date. The Sub-Funds utilise the last traded market price for both financial assets and financial liabilities.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The carrying value less impairment provision of other receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Sub-Funds for similar financial instruments.

HKFRS 13 requires the Sub-Funds to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes "observable" requires significant judgement by the Sub-Funds. The Manager considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Notes to the financial statements (continued)

8 Financial risk management (continued)

Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1. The Sub-Funds do not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2.

There were no transfers between levels for Allianz Choice Balanced Fund, Allianz Choice Capital Stable Fund, Allianz Choice China A-Shares Fund, Allianz Choice Flexi Balanced Fund, Allianz Choice Global Equity Fund, Allianz Choice Growth Fund, Allianz Choice Stable Growth Fund, Allianz Choice HK\$ Liquidity Fund, Allianz Choice HK\$ Cash Fund, Allianz Choice RMB Money Market Fund, Allianz Choice “Best Styles” US Fund, Allianz Choice “Best Styles” Europe Fund, Allianz Choice Global Fixed Income Fund and Allianz Choice Japan Fund for the year ended 30 September 2024.

There were no transfers of financial assets and financial liabilities between the fair value hierarchy levels during the year/period ended 30 September 2024.

Notes to the financial statements (continued)

8 Financial risk management (continued)

(f) Fair value information (continued)

The assets and liabilities included in the statement of net assets, other than financial assets and liabilities at fair value through profit or loss, are carried at amortised cost; their carrying values are a reasonable approximation of fair value.

(g) Capital risk management

The capital of the Sub-Funds are represented by the net assets attributable to unitholders. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Sub-Funds are subject to daily subscriptions and redemptions at the discretion of unitholders. The Sub-Funds' objective when managing capital is to safeguard the Sub-Funds' ability to continue as a going concern in order to provide returns for unitholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Sub-Funds.

In order to maintain or adjust the capital structure, the Sub-Funds' policy is to perform the following:

- monitor the level of daily subscriptions and redemptions relative to the liquid assets; and
- redeem and issue units in accordance with the Trust Deed of the Sub-Funds.

The Management monitors capital on the basis of the value of net assets attributable to unitholders.

9 Derivatives

Forward and futures contracts are commitments either to purchase or sell a designated financial instrument, currency, commodity or an index at a specified future date for a specified price and may be settled in cash or the underlying financial asset. Forwards are customised over-the-counter contracts and result in credit exposure to the counterparty.

Forward and futures contracts result in exposure to market risk based on changes in market prices relative to contracted prices. Market risks arise due to the possible movement in foreign currency exchange rates, indices, and securities' values underlying these instruments. In addition, forward contracts are generally subject to liquidity risk.

9 Derivatives (continued)

Forward contracts

As at 30 September 2024 and 2023, the details of the Sub-Funds' holdings in net settled foreign currency forward contracts are specified in the tables below.

10 Units in issue

The prospectus requires formation expenses of each of the Sub-Funds to be amortised over a period of 5 years for the purpose of calculating its trading net asset value, whereas HKFRS requires formation expenses to be expensed as incurred. For Allianz Choice China A-Shares Fund, all formation expenses have been expensed during the year ended 30 September 2022. For Allianz Choice Global Equity Fund, all information expenses have been expensed during the year ended 30 September 2021 in accordance with HKFRS, however this has resulted in a difference between the Sub-Fund's trading net asset value and the sum of assets and liabilities measured in accordance with HKFRS. The Sub-Fund's shares as equity in accordance with HKAS 32 and therefore equate to the residual value of the Sub-Fund's total assets less total liabilities. The following table shows the reconciliation of the Sub-Fund's equity value to its trading net asset value:

	2024 HKD'000	2023 HKD'000
Allianz Choice A-Shares Fund		
Net assets attributable to unitholders as per Statement of Net Assets	256,292	107,884
Adjustment for formation expenses	<u>247</u>	<u>371</u>
Trading net asset value calculated in accordance with the Sub-Fund's Prospectus	<u>256,539</u>	<u>108,255</u>
Allianz Choice Global Equity Fund		
Net assets attributable to unitholders as per Statement of Net Assets	780,849	2,094,782
Adjustment for formation expenses	<u>60</u>	<u>120</u>

13 Soft dollar arrangements

Generally, brokers are selected on the basis of best execution in accordance with the Manager's broker selection policy by taking various factors into consideration. In line with market practice, these brokers will generally charge a full service brokerage rate for trading and as part of their services, they will also provide the Manager with advisory services including, for example, in-house generated research reports.

The Manager has entered into soft dollar arrangements with some brokers which will enable part of the commission paid to the executing broker to be accrued and credited to pay for goods and/or services provided by another third party service provider ("Credits"). Only accounts which the Manager is authorised in writing to enter into such arrangements will be included in the Manager's soft dollar arrangements and accrue Credits; for other accounts, the entire commission paid to brokers for the trades executed on behalf of the accounts will be retained by the brokers. The Manager is authorised by the Trust Deed to enter into such arrangements on behalf of these Sub-Funds.

Notes to the financial statements (continued)

13 Soft dollar arrangements (continued)

The Credits have only been utilised by the Manager to pay for goods and services which are permitted under the relevant codes of the SFC to be received by an investment manager and include the following: research and advisory services; economic and political analysis; portfolio analysis-including valuation and performance measurement; market analysis, data and quotation services; computer software incidental to the above goods and services; and investment-related publications.

The table below details the amounts of transactions executed and their related commissions during the year under the soft dollar arrangement.

	Amount of transactions executed		Commission	
	2024 HKD'000	2023 HKD'000	2024 HKD'000	2023 HKD'000
Allianz Choice Flexi Balanced Fund	320,988	998,517	289	387
Allianz Choice Asian Fund	4,462,369	10,113,505	11,130	9,573

Allianz Choice Hong Kong Fund	3,470,199	10,393,306	6,021	9,967
Allianz Choice Oriental Fund	538,361	384,264	1,010	369
Allianz Choice Stable Growth Fund	296,436	577,484	161	135
	JPY'000	JPY'000	JPY'000	JPY'000
Allianz Choice Japan Fund	1,308,259	17,161,662	1,962	13,462

For Allianz Choice China A-Shares Fund, Allianz Choice Global Equity Fund, Allianz Choice HK\$ Liquidity Fund, Allianz Choice HK\$ Cash Fund, Allianz Choice RMB Money Market Fund, Allianz Choice "Best Styles" Europe Fund, Allianz Choice "Best Styles" US Fund and Allianz Global Fixed Income Fund, the Manager has not entered into any soft dollar arrangements with any brokers during the years ended 30 September 2024 and 2023.

14 Transactions with the Trustee, the Manager and their related parties/Connected Persons/Associates/Delegates

The following is a summary of significant related party transactions or transactions entered into during the year between the Sub-Funds and the Trustee, the Manager and their Connected Persons/Associates or their delegates. Connected Persons/Associates are those as defined in the Code on Unit Trusts and Mutual Funds and the Mandatory Provident Fund Schemes Ordinance issued by the SFC and the Authority respectively. All such transactions during the year were entered into in the ordinary course of business and on normal commercial terms. To the best of the knowledge of the Trustee and the Manager, the Sub-Funds did not have any other transactions with Connected Persons/Associates or their delegates except for those disclosed below.

(a) Trustee fee

The Trustee, HSBC Institutional Trust Services (Asia) Limited, a subsidiary within the HSBC Group, is entitled to a trustee's fee charged based on a tier of the net assets value of each Sub-Fund as follows:

	Trustee fee per annum
For all Sub-Funds except for Allianz Choice Balanced Fund, Allianz Choice Capital Stable Fund, Allianz Choice Growth Fund, Allianz Choice Stable Growth Fund, Allianz Choice RMB Money Market Fund, Allianz Choice "Best Styles" Europe Fund, Allianz Choice "Best Styles" US Fund, Allianz Choice Global Fixed Income Fund and Allianz Choice Japan Fund:	
Tier of net assets value	
First HKD387.5 million	0.070%
Next HKD387.5 million	0.050%
Next HKD1,550 million	0.040%
Portion on top of HKD2,325 million	0.035%
For Allianz Choice RMB Money Market Fund:	
Tier of net assets value	
First RMB353.5 million	0.070%
Next RMB353.5 million	0.050%
Next RMB1,414 million	0.040%
Portion on top of RMB2,121 million	0.035%
For Allianz Choice "Best Styles" Europe Fund:	
Tier of net assets value	
First EUR44.5 million	0.070%
Next EUR44.5 million	0.050%
Next EUR178 million	0.040%
Portion on top of EUR267 million	0.035%

Notes to the financial statements (continued)

14 Transactions with the Trustee, the Manager and their related parties/Connected Persons/Associates/Delegates (continued)

(a) *Trustee fee (continued)*

	Trustee fee per annum
For Allianz Choice "Best Styles" US Fund and Allianz Choice Global Fixed Income Fund:	
Tier of net assets value	
First USD50 million	0.070%
Next USD50 million	0.050%
Next USD200 million	0.040%
Portion on top of USD300 million	0.035%
For Allianz Choice Japan Fund:	
Tier of net assets value	
First JPY5,386 million	0.070%
Next JPY5,386 million	0.050%
Next JPY21,544 million	0.040%
Portion on top of JPY32,316 million	0.035%

The trustee fees are calculated on each valuation day, except for Allianz Choice Balanced Fund, Allianz Choice Capital Stable Fund, Allianz Choice Growth Fund and Allianz Choice Stable Growth Fund which invest in other investment funds so are not subject to trustee fee. The fee, where applicable, is payable to the Trustee monthly in arrears.

Information relating to these transactions is set out in note 14(i).

14 Transactions with the Trustee, the Manager and their related parties/Connected Persons/Associates/Delegates (continued)

(b) *Brokerage*

In its purchases and sales of investments, the Sub-Funds utilise the brokerage services of the Hongkong and Shanghai Banking Corporation Limited, which is a member of the HSBC Group.

Information relating to these transactions is set out in note 14(i).

(c) *Banking services*

The Trustee is a subsidiary within the HSBC Group. The Sub-Funds utilise the banking services of certain subsidiaries of the HSBC Group in the ordinary course of its banking and securities custodian business.

Information relating to balances outstanding as at 30 September 2024 and 30 September 2023, the interest income earned from deposit placements, bank charges and safekeeping fees paid during the year is set out in note 14(i). Information relating to uncommitted overdraft and uncommitted foreign exchange facilities obtained from HSBC Group is set out in note 15 and note 17.

(d) *Registrar and transfer agent fees*

In addition to management fee (see note 5), the Manager is entitled to registrar and transfer agent fees. Registrar fee is an annual fee ranging from HKD20,000 up to HKD50,000 per Sub-Fund, except for Ordinary Class – F Units which are not subject to registrar fee. Transfer agent fees are charged based on each agent transaction.

Information relating to registrar and transfer agent fees is set out in note 14(i).

(e) *Administration fee*

Administration Classes of units are tailored toward ORSO Schemes, whose employers have appointed an administrator for their schemes. The administrators are entitled to administration fee at the rate of 0.45% per annum of the net assets attributable to unitholders of all Sub-Funds in any Administration Classes of units calculated on each valuation day. Administration fee is payable to the administrators monthly in arrears.

Information relating to these transactions is set out in note 14(i).

Notes to the financial statements (continued)

14 Transactions with the Trustee, the Manager and their related parties/Connected Persons/Associates/Delegates (continued)

(f) *Subscription and redemption of units of the Sub-Funds*

Where applicable, the Manager of the Sub-Funds, its directors and its investment advisors, may invest from time to time in the Sub-Funds in accordance with the principles in the Manager's code of ethics.

Allianz Global Investors Asia Pacific Limited held the following units in Allianz Choice Flexi Balanced Fund, Allianz Choice Asian Fund, Allianz Choice Balanced Fund, Allianz Choice Capital Stable Fund, Allianz Choice China A-Shares Fund, Allianz Choice Greater China Fund, Allianz Choice Global Equity Fund, Allianz Choice Growth Fund, Allianz Choice Growth Fund, Allianz Choice Hong Kong Fund, Allianz Choice Oriental Fund, Allianz Choice Stable Growth Fund, Allianz Choice HK\$ Liquidity Fund, Allianz Choice HK\$ Cash Fund, Allianz Choice RMB Money Market Fund, Allianz Choice "Best Styles" Europe Fund, Allianz Choice "Best Styles" US Fund, Allianz Choice Japan Fund and Allianz Choice Global Fixed Income Fund:

* The overdraft facility and foreign exchange facility available to each Sub-Fund are up to the lesser of the amounts stated above or the percentage of each Sub-Fund's net assets stated above.

The obligations of each Sub-Fund under these facilities are secured by charges on, inter alia, the securities and/or cash held from time to time with the HSBC Group.

There has no overdrafts facilities or foreign exchange facilities been drawn down by the Sub-Funds from HSBC Group as at 30 September 2024 and 30 September 2023.

Notes to the financial statements (continued)

16 Investment in other investment funds

The investment in investment funds held by the Allianz Choice Balanced Fund, Allianz Choice Capital Stable Fund, Allianz Choice Growth Fund and Allianz Choice Stable Growth Fund are subject to the terms and conditions of the investment funds' offering documentation and are susceptible to market price risk arising from uncertainties about future values of the investment funds. The respective investment managers make investment decisions after extensive due diligence of the investment funds and their strategies. The investment funds are managed by the respective Managers who is compensated by the investment funds for its services. Such compensation consists of an asset based fee and is reflected in the valuation of the Sub-Funds' investment in the investment funds.

The maximum exposure to loss is the carrying amount of the investment funds held by the Sub-Funds.

The table below sets out the details of the Sub-Funds' interests in these investment funds.

Notes to the financial statements (continued)

16 Investment in other investment funds (continued)

During the years ended 30 September 2024 and 2023, the Sub-Funds did not provide any other financial support except for the amount invested into the investment funds, and have no intention of providing further financial or other support.

The Sub-Funds' holding in the investment funds, as a percentage of the investment funds' total net asset value, will vary from time to time dependent on the volume of subscriptions and redemptions at the investment fund level. It is possible that the Sub-Funds may, at any point in time, hold a majority of the respective investment funds' total units in issue.

The Sub-Funds can redeem units in the above investment funds on a daily basis.

The Sub-Funds' maximum exposure to loss from its interests in investment funds equal to the total fair value of its investments in investment funds. Once the Sub-Funds have disposed of their units in an investment fund, the Sub-Funds cease to be exposed to any risk from that investment fund.

The Sub-Funds' investment strategy entails trading in other investment funds on a regular basis. Total purchases in investment funds during the years ended 30 September 2024 and 2023 are disclosed in the following table.

	2024	2023
	HKD'000	HKD'000
Allianz Choice Balanced Fund	5,484,075	2,750,086
Allianz Choice Capital Stable Fund	2,246,957	910,992
Allianz Choice Growth Fund	4,976,785	2,592,524
Allianz Choice Stable Growth Fund	3,632,673	1,540,877

The Sub-Funds intend to continue opportunistic trading in other funds. As at 30 September 2024 and 2023, there were no capital commitment obligations. Amounts due to investment funds for unsettled purchases as at 30 September 2024 and 2023 are shown as amounts due to brokers on the statement of net assets for the respective Sub-Funds.

The net gains/(losses) incurred on investment in investment funds during the years ended 30 September 2024 and 2023 are disclosed in the following table.

	2024	2023
	HKD'000	HKD'000
Allianz Choice Balanced Fund	807,831	123,082
Allianz Choice Capital Stable Fund	218,203	61,855
Allianz Choice Growth Fund	826,690	105,635
Allianz Choice Stable Growth Fund	449,757	(693,174)

17 Bank loans, overdrafts and other borrowings

As at 30 September 2024 and 2023, there were no bank loans, overdrafts or other borrowings.

18 Contingent liabilities and commitments

As at 30 September 2024 and 2023, there were no contingent liabilities or commitments.

19 Security lending arrangements

During the years ended 30 September 2024 and 2023, the Sub-Funds did not enter into any security lending arrangements.

20 Negotiability of assets

As at 30 September 2024 and 2023, there were no statutory or contractual requirements restricting the negotiability of the assets of the Sub-Funds.

21 Approval of financial statements

The financial statements were approved by the Trustee and the Manager on 24 January 2025.
